Project Title: Log Cabin Diversion Dam and Our House Diversion Dam Sediment Management Plan

Project Applicant: Yuba County Water Agency

Project Location (include county): Our House Diversion Dam on the Middle Yuba River in Sierra and Nevada counties, and Log Cabin Diversion Dam on Oregon Creek in Yuba county

Project Description: The purpose of the Sediment Management Plan is to prescribe procedures and guidelines for sediment management at Log Cabin and Our House Diversion Dams. The primary objectives of the Sediment Management Plan are: 1) provide for dam safety and proper functioning of diversion dam facilities, specifically the fish release and low-level outlet valves; and 2) maintain the health of the aquatic environment downstream of the diversion dams by allowing for the passage of accumulated sediment. The Sediment Management Plan includes mechanical sediment removal and sluicing (passage of sediment through the low-level outlets of the diversion dams) to achieve its objectives.
