SUBJECT: Filing of Notice of Determination in compliance with Sections 21108 and 21152 of the Public Resources Code.

State Clearinghouse Number (if submitted to the State Clearinghouse): 2019120606

Project Title: Eastside Water Treatment Facility Expansion and Brine Pipeline Project

Project Applicant: City of Chino Public Works Department

Project Location (include county): The Project is located within the cities of Ontario and Chino, San Bernardino County, CA.

The Eastside Water Treatment Facility (EWTF) is located at 7537 Schaefer Avenue, Ontario.

Two alternative alignments were evaluated for the Brine Pipeline, the Preferred Alternative and an Alternative Alignment. The Preferred Alternative will exit the EWTF (in the City of Ontario) at Schaefer Avenue go east to Bon View Avenue; proceed south in Bon View Avenue to Merrill Avenue; proceed west in Merrill Avenue (in the City of Chino) to Euclid Avenue (California 83), go south in Euclid Avenue to Kimball Avenue, then west in Kimball Avenue to the Chino I Desalter Treatment Facility at 6905 Kimball Avenue, Chino. The Preferred Alignment will extend approximately 3.5 miles (approximately 1.7 miles in the City of Ontario and 1.8 miles in the City of Chino).

The Alternative Alignment will exit the EWTF (in the City of Ontario) from the southeast corner, proceed south in a City of Ontario easement in the northerly extension of Campus Avenue to Edison Avenue, then east in Edison Avenue to Bon View Avenue. From the intersection of Bonview Avenue/Eucalyptus Avenue the Alternative Alignment is identical to the Preferred Alternative to the Chino I Desalter. The Alternative Alignment, from the EWTF to the Chino I Desalter, will extend approximately 3.5 miles (approximately 1.7 miles in Ontario and 1.8 miles in Chino).

Project Description: The proposed project consists of the expansion of the treatment capacity of the Eastside Water Treatment Facility (EWTF) and construction of approximately 3.5 miles

(\$50)

NOTICE OF DETERMINATION

PROJECT: Eastside Treatment Facility Expansion and Brine Pipeline

DATE: February 18, 2020

of dual 6-inch diameter PVC (polyvinyl chloride) pipelines to convey brine waste from the EWTF site to the Chino I Desalter Treatment Facility at 6905 Kimball Avenue, Chino CA. All demolition and construction associated with implementation of the EWTF expansion will take place at the existing EWTF site. An existing generator pad, concrete waste vault, highlines, and concrete pads will be demolished, a new generator pad will be constructed, the existing generator connection box will be relocated, a new ISEP™ building will be constructed, new granular activated charcoal (GAC) vessels will be installed, and two existing GAC vessels located near the southeast corner of the EWTF site will be relocated. Existing brine waste tanks located under the treatment plant canopy will be repurposed for the ISEP™ process, since once the Project is complete, they will no longer be needed to store brine waste. Instead of trucking brine waste offsite, brine waste will be conveyed from the EWTF site via the proposed Brine Pipeline to the Inland Empire Brine Line (IEBL). New cartridge filters will be installed east of the existing GAC vessels. The Brine Pipeline will be constructed using an open trench method, except where it crosses under a drainage culvert at Merrill Street before going south at Euclid Avenue. Vertical trenching will be used at this location so that the pipelines will be constructed under the drainage culvert. Construction of the Brine Pipeline will entail the removal of approximately 86 trees in four locations within the western ROW of Bon View Avenue between Schaefer Avenue and Merrill Avenue.

This is to advise that the Chino City Council (Lead Agency of Responsible Agency) has approved the above described project on February 18, 2020 and has made the following determinations regarding the above described project:

1. The project (will or will not) have a significant effect on the environment.
2. An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA; or
 A Negative Declaration was prepared for this project pursuant to the provisions of CEQA; or
3. A Mitigated Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
4. A Statement of Overriding Considerations (was or was not) adopted for this project.
5. Findings (were were not) made pursuant to the provisions of CEQA.

This is to certify that the (final EIR with comments and responses or the Negative Declaration) and record of project approval are available to the general public at Chino City Hall, 13220 Central Avenue, Chino, California 91710.
