

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Desert Valley Company Monofill Expansion Project, Cell 4

Lead Agency: Imperial County Planning & Development Services Department

Contact Name: Diana Robinson

Email: dianarobinson@co.imperial.ca.us Phone Number: (442) 265-1736

Project Location: Westmorland Imperial
City *County*

Project Description (Proposed actions, location, and/or consequences).

The Desert Valley Company Monofill is an active Class II Solid Waste Management Facility used for the disposal of nonhazardous geothermal waste streams and byproducts generated by CalEnergy's geothermal power plants in Imperial County, California. The existing DVCM is permitted under CUP No. 05-0020, Solid Waste Facility Permit No. 13 AA-0022, and Waste Discharge Requirements R7-2016-0016. CalEnergy (Applicant) is requesting an amendment to CUP No. 05-0020 (CUP Amendment 18-0025), a General Plan Amendment (GPA 18-0004), and a Zone Change (ZC 18-0005) to facilitate expansion of the existing DVCM for development of a new waste storage cell (referred to herein as Cell 4) and associated facilities. They are also seeking to obtain a Water Well CUP (#21-0002) for a new water well. The proposed Project would expand the existing DVCM by approximately 80 acres and would provide an additional 1.3 million cubic yards of disposal capacity. The design of Cell 4 would be consistent with DVCM's existing permits and all aspects of the proposed Project, such as operations, maintenance, monitoring, recordkeeping, and financial assurances would be consistent with those of the existing monofill.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Air Quality, Biological Resources, Cultural Resources, Geology/Soils, Hazards and Hazardous Materials, Hydrology/Water Quality, Tribal Cultural Resources and Utilities and Service Systems.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None.

Provide a list of the responsible or trustee agencies for the project.

California Regional Water Quality Control Board, Colorado River Basin, Region 7 (RWQCB)
California Department of Transportation (Caltrans)
California Department of Fish and Wildlife
Imperial County Public Health Department, Division of Environmental Health and CalRecycle
Imperial County Air Pollution Control District (ICAPCD)
County Department of Public Works (DPW)
