Project Title: Burbank Water and Power Campus Stormwater Improvement Project

Project Applicant: City of Burbank, Burbank Water and Power

Project Location (include county): 164 W. Magnolia Blvd., Burbank, Los Angeles County, CA 91502

Project Description:

The project will involve construction of stormwater improvements on the Burbank Water and Power (BWP) campus and the adjacent off-site storm water drainage system to comply with Regional, State, and Federal water quality standards. The project will construct drainage improvements that will allow stormwater from adjacent properties to be intercepted and discharged into the Burbank Western Channel (BWC), a tributary of the Los Angeles River, through a new outfall structure. Once separated, on-site runoff will be largely retained on the BWP Campus and either infiltrated into the groundwater or used for cooling tower make-up (replenishment) water.

This is to advise that the City of Burbank, Burbank Water and Power has approved the above (Lead Agency or Responsible Agency)

described project on 06/13/2023 and has made the following determinations regarding the above described project.

- 1. The project will not have a significant effect on the environment.
2. A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures were made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan was adopted for this project.
5. A statement of Overriding Considerations was not adopted for this project.
6. Findings were made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:
