To: Office of Planning and Research
 State Clearinghouse
 P.O. Box 3044, 1400 Tenth Street, Room 212
 Sacramento, CA 95812-3044

From: Department of Toxic Substances Control
 Permitting Division
 8800 Cal Center Drive
 Sacramento, CA 95826

Project Title: EMERGENCY PERMIT FOR TREATMENT OF HAZARDOUS WASTE, HEWLETT-PACKARD INC.

Project Location: 1501 Page Mill Road, Palo Alto, California 94304

County: Santa Clara County

Project Activities: The California Department of Toxic Substances Control (DTSC), pursuant to authority granted under California Code of Regulations, Title 22, Division 4.5, Chapter 20, Section 66270.61, has issued an Emergency Permit to Hewlett-Packard Inc., (EPA ID# CAD009122532) to treat hazardous waste by controlled reaction with a chemical solution. The hazardous waste to be treated consists of the following items:

Description	Quantity	Hazard Designation	Container Size
2,2 Azobisisobutyronitrile	2	Temperature/Shock Sensitive Material	2x250 grams
Perkadox 16	1	Temperature/Shock Sensitive Material	1x167 grams

It has been determined that these items are or may be highly reactive and or ignitable and must be stabilized prior to transportation offsite. The items are currently being stored at the Hewlett-Packard facility located at 1501 Page Mill Road in Palo Alto, California. Because Hewlett-Packard Inc., does not have a permit for the treatment of the hazardous waste, DTSC has determined as a safety precaution to prevent an accident or severe injury, an Emergency Permit should be issued to chemically stabilize the hazardous waste prior to transportation off site by Clean Harbors Environmental Services (CHES). The treatment of the hazardous waste involves the addition of solution to the containers to reduce the reactive or ignitable characteristics of the chemicals.

Treatment will take place within designated exclusion zones adjacent to the buildings. Only reactive material technicians from CHES will be allowed in the exclusion zones. Movement, preparation, and treatment of the item will be in accordance with established standards.

A follow up report will be submitted to DTSC by Hewlett-Packard Inc. The report shall include certification that the treatment has been cleared of all residual hazardous waste generated from this emergency treatment and that all generated waste has been properly managed and/or disposed.

The Emergency Permit is effective beginning August 7, 2017 and shall expire on October 5, 2017.

Name of Public Agency Approving Project: Department of Toxic Substances Control

Name of Person or Agency Carrying Out Project: Hewlett-Packard, Inc.

Exemption Status: (check one)

- Ministerial [PRC, Sec. 21080(b)(1); CCR, Sec. 15268]
- Declared Emergency [PRC, Sec. 21080(b)(3); CCR, Sec.15269(a)]
- Emergency Project [PRC, Sec. 21080(b)(4); CCR, Sec.15269(b)(c)]
- Categorical Exemption: [State type and section number]
- Statutory Exemptions: [State code section number]
- General Rule [CCR, Sec. 15061(b)(3)]

Exemption Title: Specific actions necessary to prevent or mitigate an emergency.

Reasons Why Project is Exempt: This action is necessary to prevent an emergency.

Evidence to support the above conclusions is documented in the project file record, available for inspection at:
