Project Title: Tisdale Bypass Sediment Removal 2020

Project Applicant: Department of Water Resources, Division of Food Management, Flood Maintenance (

Project Location (include county): Sutter

**Project Description:**

DWR prepared a CEQA addendum to address a change in the project, increasing a speed limit of 15 mph to 30 mph for construction equipment excavating sediment from the Tisdale Bypass. A speed limit of 15 mph would potentially put DWR over the air quality threshold for NOx due to equipment run time and efficiency. An increase in speed, with dust suppression and other air and water quality BMPs present, will not change the original IS/MND analyzed impact of air quality from less than significant.

This is to advise that the Department of Water Resources has approved the above  
 Lead Agency or  Responsible Agency)

described project on August 27, 2020 and has made the following determinations regarding the above  
 (date)  
 described project.

1. The project [ will  will not] have a significant effect on the environment.
2.  An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA.  
 A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures [ were  were not] made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan [ was  was not] adopted for this project.
5. A statement of Overriding Considerations [ was  was not] adopted for this project.
6. Findings [ were  were not] made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:

Joint Operations Center, 3310 El Camino Avenue, Suite 140, Sacramento, CA 95821
