Project Description (Proposed actions, location, and/or consequences).

The County Sanitation District No. 2 of Los Angeles County (District) proposes the rehabilitation of a portion of the Joint Outfall F Unit 3A, a reinforced concrete pipe by constructing concrete encasements around the existing siphon structure. Due to the condition of the existing siphon structure, the District proposes to rehabilitate two locations of the Joint Outfall F Unit 3A located on either side of the San Gabriel River (River) in order to protect the siphon that crosses the River.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The proposed project would result in potentially significant impacts related to Biological Resources, Cultural Resources, Geology and Soils, Hazards/Hazardous Materials, Noise, and Tribal Cultural Resources. Mitigation has been proposed for the above mentioned resources. Incorporation of mitigation measures would result in less than significant impact to all resources areas.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No known controversies
