Description of the Project:

The proposed project (PLN 2014-00410), includes a tentative map for the three-lot Minor Subdivision and the associated RM Permit and Grading Permit for landslide repair associated with previous landslide activity. The applicant proposes a Minor Subdivision of a 60.3-acre parcel into three lots and a remainder parcel. The subdivision would result in three parcels (0.669-acre, 0.707-acre, 0.734-acre in size; Proposed Lots 1-3) and a 58.153-acre remainder parcel (48.88 acres of land to be protected by a conservation easement, and 9.273 acres of developable area which includes an existing single-family dwelling). The three lots would be developed with residences. The project requires a Grading Permit for 455 cubic yards (cy) of earthwork (290 cy of cut and 165 cy of fill) for landslide repair. Stabilization of the landslide area would be achieved with stich pier retaining walls to be completed prior to any future residential construction. No residential development is proposed with this application.
