

# Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

SCH #: 2020019072

Project Title: Winery Canyon Channel Stormwater Capture and Reuse Project

Lead Agency: County of Los Angeles Department of Parks and Recreation

Contact Name: Jui Ing Chien

Email: jchien@parks.lacounty.gov Phone Number: 626.588.5317

Project Location: 1418 Descanso Drive, La Canada-Flintridge, CA 91101 Los Angeles County  
*City* *County*

Project Description (Proposed actions, location, and/or consequences).

This Addendum No. 1 updates the Descanso Gardens Master Plan Final Program Initial Study/Mitigated Negative Declaration (IS/MND), adopted by the County of Los Angeles in October 2020, to address modifications to water conservation elements in the Master Plan to be located in the Main and Auxiliary Parking Lots. These include a different diversion point, underground cistern in lieu of a treatment wetland, expanded infrastructure for distribution, and parking lot drainage features. The Project would divert, treat, and reuse stormwater captured from Winery Canyon Channel to a 4.5-acre-foot cistern to offset potable water use for landscape irrigation and Lake level maintenance. The modifications would not result in any new significant or substantially more severe environmental impacts than disclosed in the IS/MND; and there is no substantial change in Master Plan scope, circumstances, or new information of substantial importance.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

MM BIO-2 (riparian, State sensitive plant communities); MM BIO-3 (federally protected wetlands and waters of the U.S.); MM BIO-4 (MBTA); MM BIO-5 (bat species); MM BIO-6 (oak and other native woodlands); MM CULTURAL-1 (archaeological and historical resources - avoidance and monitoring); MM CULTURAL-2 (pre-construction surveys, avoidance, salvage and recovery of unique archaeological resources); MM CULTURAL-3 (paleontological monitoring); MM CULTURAL-4 (RRs - human remains); MM NOISE-1 (construction noise); MM TRIBAL-1 (tribal resources - avoidance and monitoring); MM TRIBAL-2 (pre-construction surveys - tribal resources); and MM TRIBAL-3 (RRs - human remains).

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

None.

Provide a list of the responsible or trustee agencies for the project.

California Department of Fish and Wildlife  
City of La Canada Flintridge Department of Building and Safety  
Los Angeles County Flood Control District  
Los Angeles County Department of Public Health  
Los Angeles Regional Water Quality Control Board  
Southern California Edison  
State Water Resources Control Board
