PROJECT TITLE: Installing Security Fence around Drinking Water Storage Tanks (CRSP 220)

LOCATION: Cuyamaca Rancho State Park

COUNTY: San Diego

DESCRIPTION OF THE NATURE AND PURPOSE OF PROJECT: The project will install a new security fence to protect the CalFire era residence drinking water holding tanks located off a fire road popular with hikers and horseback riders. A 6' high commercial grade galvanized security fence will be constructed around the perimeter of the three drinking water holding tanks. Fencing will be roughly a 12' to 14' perimeter around the tanks totaling about 240 linear feet. (Measurements include a buffer to allow some play in the layout for necessary adjustments during construction.) Two 6' gates will be installed on the road side for access to the tanks. There will be approximately 2' X 2' holes dug every 8' for the field posts and 2'X3' holes dug at the three corner posts and two dug for the gate posts.
