Subject: EXTERNAL: Initial Study Chadwick Ranch Subdivision

California Oaks is for a different location but the issues raised must be addressed

Hamilton Biological is a copy which must be considered

Hamilton Biological Drought tolerant native plant list- use column 5 for San Gabriel Mountains

The usual invasive plant list is out of date, there are several others all of which must be considered

Several previous scoping comments which must be considered

We shall be requesting copies of all scoping comments under CPRA

Thank you very much
