SUBJECT: Filing of Notice of Determination in compliance with Section 21108 or 21152 of the Public Resources Code.

State Clearinghouse Number (if submitted to State Clearinghouse): _____

Project Title: _____

Project Applicant: _____

Project Location (include county): _____

Project Description:

Currently, the project site is developed with and operates as a solid waste transfer and recycling facility. The existing facility is currently permitted to process a maximum of 174 tons per day of inert construction and demolition debris. The proposed project would modify operations of the facility to increase the maximum tonnage of materials that could be received and processed. Under the proposed project, maximum daily tonnage would increase from 174 tons per day to 350 tons per day. The proposed increase in maximum daily tonnage of materials accepted at the transfer station would not require physical expansion or new construction of the facility. The project would involve replacement of existing concrete jersey block walls along the perimeter of the project site and between material storage areas on-site. These existing walls would be replaced with new walls pursuant to current CBC.

This is to advise that the _____ has approved the above
 (Lead Agency or Responsible Agency)

described project on _____ and has made the following determinations regarding the above
 (date)
 described project.

1. The project [will will not] have a significant effect on the environment.
