Present Land Use/Zoning/General Plan Designation:

Donner Memorial State Park General Plan area (Planning Zone 3)

Project Description: (please use a separate page if necessary)

The Project is being proposed by the Truckee River Watershed Council (TRWC) in partnership with the CEQA lead agency, California Department of Parks and Recreation – State Parks (CDPR). The project would help restore hydrologic and ecosystem function to the Coldstream Canyon watershed, a 12.5 square-mile watershed near Truckee, California. The project focuses on restoration of three main landforms within the watershed: 1) improvements to CDPR roads, including at up to 21 drainage crossings to improve drainage and decrease water capture and erosion; 2) riparian and wetland habitat enhancement at two adjacent ponds (formerly gravel borrow pits); and 3) channel stabilization and floodplain restoration of a 0.75 mile long stretch of Cold Creek.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with and "X". If you have already sent your document to the agency please denote that with an "S".
