**Project Description:** The California Department of Fish and Wildlife (CDFW) has executed Lake and Streambed Alteration Agreement No. 1600-2020-0144-R2, pursuant to Section 1602 of the Fish and Game Code to the project Applicant, Sacramento Area Sewer District, as represented by Rosemary Clark.

The Sailor Bar Pump Station, built in 1969, has deteriorated over the past 50-years, resulting in various civil, mechanical, electrical, and structural issues with the facility. The proposed project would address these issues and lengthen response time, by adding additional capacity and submersible pumps. Additionally, the project will address flooding issues by raising the facility's elevation above the 100-year floodplain and improving existing drainage facilities. The project will construct a new wet well within the limits of the existing Sailor Bar pump station site, along with site/civil, mechanical, and electrical improvements
