 Air Quality Forest Land/Fire Hazard Septic Systems Water Supply/Groundwater
 Archeological/Historical Geologic/Seismic Sewer Capacity Wetland/Riparian
 Biological Resources Minerals Soil Erosion/Compaction/Grading Growth Inducement
 Coastal Zone Noise Solid Waste Land Use
 Drainage/Absorption Population/Housing Balance Toxic/Hazardous Cumulative Effects
 Economic/Jobs Public Services/Facilities Traffic/Circulation Other: _____

Present Land Use/Zoning/General Plan Designation:

Federal Land Used for Recreation

Project Description: (please use a separate page if necessary)

The proposed project involves pulling the MX Track area back from the river to an existing parking/picnic area, reducing the chances of flood damage in the future. The existing parking area, picnic tables, and trials area would be moved to the east side of the river bar. Fill from the old track would be used to build bank turns and jumps on the level portions of the relocated track. After boulders are removed from the slope of the Trials Area, fill would be used to incorporate additional turns, minimizing the need for fill placement. Because this area is adjacent to the ascending canyon flank, the track would be engineered to effectively control surface runoff from the upslope terrain. The track would be fenced to prevent access during non-operating days.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
