Project Title: Biggs-West Gridley Water District Infrastructure Modernization and Canal Operations Decision Support

Project Applicant: Eugene Massa, General Manager

Project Location (include county): 197 sites along the water conveyance system, primarily west of Biggs and Gridley

Project Description:

The project involves minor modifications to infrastructure at 197 sites. The project involves mostly minor construction activities including upgrades to measure customer gravity deliveries and pumped deliveries. The activities will typically involve upgrading existing customer delivery turnouts, upgrading canal headings to provide improved flow measurement, and installing real-time monitoring components including weir boxes with mounting plates, culverts and sluice gates, staff gauges and stilling wells, and sharp-crested weirs at operational spills.

This is to advise that the Biggs-West Gridley Water District has approved the above (X) Lead Agency or () Responsible Agency

described project on 9/15/2021 and has made the following determinations regarding the above described project.

- 1. The project () will (X) will not have a significant effect on the environment.
2. () An Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA. (X) A Negative Declaration was prepared for this project pursuant to the provisions of CEQA.
3. Mitigation measures (X) were () were not made a condition of the approval of the project.
4. A mitigation reporting or monitoring plan (X) was () was not adopted for this project.
5. A statement of Overriding Considerations () was (X) was not adopted for this project.
6. Findings (X) were () were not made pursuant to the provisions of CEQA.

This is to certify that the final EIR with comments and responses and record of project approval, or the negative Declaration, is available to the General Public at:
