SUBJECT: Filing of Notice of Determination in compliance with Section 21108 or 21152 of the Public Resources Code.

State Clearinghouse Number (if submitted to State Clearinghouse): 2020060092

Project Title: Corn Camp Groundwater Recharge Pond

Project Applicant: Tim Ashlock

Project Location (include county): Approximately 20 miles west of Bakersfield, Kern County, CA

Project Description:

The District proposed to construct a 50-acre recharge pond that would expose sand for percolation at 8 feet deep. Approximately 252,900 cubic yards of soil would be excavated and used to construct berms to contain the pond. Maximum recharge estimates, based on a full-year operation schedule, would average 24,500 AFY. Water from existing District sources would be delivered to the recharge pond via the existing Corn Camp Canal and/or 7th Standard Pipeline. The District would also install a pump station and 30-foot-tall water storage tank. The proposed Project is located on the southwest corner of the Corn Camp Road and Sullivan Road intersection.

This is to advise that the Buena Vista Water Storage District has approved the above (X) Lead Agency or ( ) Responsible Agency

described project on September 16, 2020 and has made the following determinations regarding the above (date) described project.

- 1. The project ( ) will (X) will not have a significant effect on the environment.
