SUBJECT: Addendum, Acoustical Analysis for 246 Bennet Way, Templeton, California.

Dear Steve:

Thank you for the opportunity to participate in the environmental analysis for the above referenced project.

In April 2018, I conducted an acoustical analysis for a project at 246 Bennet Way in Templeton, CA. You indicated that you represent the Peoples Self Help Housing organization (PSHH), which has taken over the subject property. PSHH plan to develop a 28-unit project with roughly the same building footprints as the project I reviewed in April 2018. After review of the new project's proposed building footprint on site, I concur that the revised project you are representing is substantially the same as the previous project I assessed at the site. Therefore, the conclusions drawn in the April 2018 Noise Study report would be valid and carryover to your new project. No further noise study would be required or warranted.

If you have any questions or need any additional information, please call Karl Mikel 805-459-4606, or email at: karl_mikel@yahoo.com.

Sincerely,

Karl Mikel,
PE QSD MSc.
