Present Land Use/Zoning/General Plan Designation:

Multiple (the project area encompasses County- maintained facilities)

Project Description: (please use a separate page if necessary)

The Contra Costa County Flood Control and Water Conservation District and the Contra Costa County Public Works Department (collectively referred to as the County) are responsible for conducting routine maintenance activities throughout Contra Costa County to ensure that facilities are properly functioning and operational. The County developed the Routine Maintenance Program Manual to describe the various routine maintenance activities conducted by the County. The Manual provides a comprehensive and consistent approach to conducting routine maintenance activities. Primary maintenance activities include culvert repair and replacement; sediment removal from channels, basins, and culverts; trash and debris removal; and vegetation trimming and removal along and within channels.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
