In accordance with Section 15072 of the California Environmental Quality Act Guidelines, this notice is to inform agencies and the public that the San Gabriel Valley Council of Governments (COG) has completed an Initial Study/Mitigated Negative Declaration (IS/MND) for the following proposed Project:

Project Title: Diamond Bar Golf Course Renovation Project

Project Description: The San Gabriel Valley COG, in cooperation with the Los Angeles County and the Metropolitan Transportation Authority (Metro), propose to renovate the Diamond Bar Golf Course (Golf Course). Planned freeway improvements on the State Route 57/State Route 60 Confluence would result in the permanent incorporation of 9.4 acres of the Golf Course, reducing the Golf Course from 171.3 acres to 161.9 acres.

The proposed project would result in the realignment and reconfiguration of six holes west of Grand Avenue and three holes east of Grand Avenue. Improvements would include reconstructing bunkers and tee and green complexes for all holes. The proposed project would increase the overall existing course yardage from 6,801 yards to 6,848 yards. The total course par would remain unchanged at par 72. An existing maintenance facility would be demolished and replaced with a new maintenance facility at a new location. The proposed project would also include changes to the existing drainage system on the Golf Course, reconfiguration of the existing concrete cart paths, and relocation of protective netting and the practice range.

Project Location: The proposed project would be constructed at the Diamond Bar Golf Course, located at 22751 Golden Springs Drive in the City of Diamond Bar, California.
