

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: 10-0Y780: Mariposa State Route 140 Pavement Preservation

Lead Agency: California Department of Transportation

Contact Name: Jaycee Azevedo

Email: Jaycee.Azevedo@dot.ca.gov

Phone Number: 209-941-1919

Project Location: Stockton, CA  
*City*

Mariposa County  
*County*

Project Description (Proposed actions, location, and/or consequences).

The California Department of Transportation (Caltrans) proposes to extend the service life of State Route 140 from post miles 25.3 to 51.8 in Mariposa County and provide a smoother riding pavement surface by resurfacing the roadway with 0.25-foot of hot mix asphalt (Type A). The work would also replace non-standard guardrails and bridge approaches with concrete end blocks where appropriate. The project would improve drainage facilities within the existing right of way and install traffic monitoring devices such as traffic count stations, rumble strips, and pavement delineation. Eleven culverts would be replaced at the following post miles: 38.07, 39.62, 44.39, 45.2, 45.67, 47.0, 47.19, 48.19, 49.2, 50.07, and 50.86. A new culvert would be installed at post mile 43.8. The project would improve non-standard dikes and rock slope protection.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project would not result in any significant or potentially significant effects. However, it may have less than significant effects on aesthetics/visuals, biological resources, cultural resources, greenhouse gas emissions, and hazards/hazardous materials. The following permits and approvals will be obtained: Clean Water Act Section 401, 402, and 404 permits, a California Fish and Game Code Section 1602 Streambed Alteration Agreement, Wild and Scenic Rivers Act Section 7(a) Determination, State Historic Preservation Officer Concurrence on Finding of No Adverse Effect, and Yosemite National Park Concurrence on Section 4(f) Determination of De Minimis Use.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.
