Project Title: Sheep Creek Water Company – Six Groundwater Production Wells

Project Applicant: Sheep Creek Water Company

Project Location (include county): 4200 Sunnyslope Road; Northwest corner of Sheep Creek Road and Nielson Road; Southeast corner of Cambria Road and Mescalero Road, all in Phelan within San Bernardino County.

Project Description:

Environmental Review Unrelated to Planning Project for six (6) proposed groundwater production wells to increase Sheep Creek Water Company's (SCWC) potable water supply in compliance with the State Water Resources Control Board's Compliance Order No. 05-13-18R-002. The wells are to be located on three different parcels; four (4) wells will run concurrently while the other two (2) will serve as backup wells. The wells will each be equipped with an above ground pump motor on top of an approximate 10-foot x 10-foot concrete pad. At each new well, the new pumps will be enclosed with a masonry block building to minimize exterior noise levels at the nearest residences (about 200 feet from each well site). To minimize onsite water consumption no new landscaping will be installed at any of the three well sites. At each of the well locations, the closest connection to SCWC's system is within the adjacent roadways. Each well will be drilled to approximately 1,500 feet deep using a reverse rotary drill unit.

This is to advise that the San Bernardino County has approved the above Lead Agency or Responsible Agency)
