Project Title: American River Watershed Common Features 2016 Project, Sacramento River Erosion Contract 1

Project Applicant: Central Valley Flood Protection Board

Project Location (include county): Along left bank of the Sacramento River in the City and County of Sacramento.

Project Description:

The U.S. Army Corps of Engineers (USACE) and Central Valley Flood Protection Board (CVFPB) propose to construct a levee improvement project consisting of approximately 1,150 feet of erosion repairs along the waterside slope of the Sacramento River east levee in Sacramento, California. The purpose of the project is to reduce the risk of flooding to the City of Sacramento by constructing levee improvements that reduce the risk of levee failure during high water events. The project area includes a portion of the left bank of Sacramento River, starting immediately downstream of the Westin Hotel property and continuing approximately 1,500 feet downstream.

This is to advise that the California Department of Water Resources has approved the above
 Lead Agency or Responsible Agency)

described project on January 20, 2021 and has made the following determinations regarding the above
 (date)
 described project.
