Project Title: Third Street "Open Air Retail/Dining" / Re-Opening San Juan Bautista

Project Location - Specific: Third Street – Franklin Street to Muckelemi; Private Business Parking Lots

Project Location – City: San Juan Bautista

Project Location – County: San Benito

Description of Project: Change Third Street to reduce traffic between Franklin and Muckelemi Streets to one west bound lane, in the center of the road, and allow businesses to apply for encroachment permits at no cost to them, and use the space in front of their businesses for additional restaurant seating and retail display, and where no encroachment permit is in place, convert the space to angled parking; and allow businesses to expand on their property into privately owned parking lots, other privately controlled property, or where appropriate on to the public right-of-way.

Name of Public Agency Approving Project: City Council.

Name of Person or Agency Carrying Out Project: Don Reynolds, City Manager

Exempt Status:
Categorical Exemption. Section 15304(e) – Class 4

Reasons why project is exempt: Section 15304(e) exempts minor temporary use(s) of land having negligible or no permanent effects on the environment, including but not limited to activities such as carnivals, sales of Christmas trees, pumpkins, and street fairs.

The reduction of traffic on Third Street to only one lane, to allow business to expand into the road, and the expansion of business into private parking lots, does not involve the placement of any permanent structures, removal of materials, or installation of permanent facilities. The roadway and parking areas are existing areas, and alternative uses of these areas would not present any potential environmental impacts.
