**Subject:** RE: Comment on the Draft Environmental Impact Report for the Idaho Maryland Mine Project

Good Morning Stacy:

Thank you, we have received your comments on the Notice of Availability (NOA) of the Draft Environmental Impact Report (DEIR) for the Idaho-Maryland Mine – Rise Grass Valley Project. They will be forwarded to the EIR consultant and the project applicant for review and consideration into the Final EIR.

- The EIR consulting firm will take all of the comments received and they will be responded to in writing as part of the Final EIR.
- The Final EIR will contain any additions or revisions to the Draft EIR based on the public and agency comments received during the DEIR comment period.
- The Final EIR will be released for a public comment period of not less than 10 days as required by California State Law and before any public hearings are held to consider the proposed project.
- A noticed Planning Commission hearing(s) will be held to consider the project and the EIR. All comments received during the entire process will be part of the record for consideration by the Planning Commission.
- A noticed public hearing(s) will then be scheduled before the Board of Supervisors to consider the proposed project, the EIR and the Planning Commission's recommendations along with all public comments received throughout the process. The Board of Supervisors will take action on the proposed project during their noticed public hearing.

Thank you again for your comments on the Draft EIR. There will be additional opportunities to comment on the proposed project throughout public hearing processes.

Available application materials and supporting documents related to the proposed project including the Draft EIR with Technical Appendixes are available for public review at the Planning Department office at 950 Maidu Avenue, Suite 170, Nevada City, CA 95959, all County of Nevada Public Libraries or they may be viewed at:
