Individuals Interested in the
San Gabriel River Hinge
Replacement Project

File No. 07-32520
San Gabriel River Bridge
Hinge and Railing
Replacement Project

Notice of Scoping/Initiation of Studies

This notice is to inform you that the California Department of Transportation (Caltrans) is formally initiating environmental studies for the San Gabriel River Bridge Hinge and Railing Replacement Project.

The Project is located on Interstate 210 from Postmile 36.0 to 38.0 within the City of Irwindale and Los Angeles County. The purpose of this Project is to preserve the structural integrity of the bridge, to prevent bridge deck failure due to failing hinges, and to upgrade bridge railings to current design standards.

Preliminary environmental studies indicated that an Initial Study/Environmental Assessment will be adequate to evaluate the anticipated environmental effects pursuant to the California Environmental Quality Act (CEQA) and the National Environmental Policy Act (NEPA).

Caltrans will work closely with the public and local agencies to assure that all pertinent factors and viable alternatives are considered. We welcome any comments or suggestions you may have concerning possible alternatives or potential social, economic, and environmental impacts resulting from the proposed Project.

Please provide your written comments by **Friday, April 24th, 2020** to:

Robert Wang, Senior Environmental Planner
Caltrans, District 7 – Division of Environmental Planning – Project number 32520
100 South Main Street, MS-16A
Los Angeles, CA 90012

All comments received will become part of the Project record and will provide valuable input to our environmental and design personnel. If you like to request further information, please contact Robert Wang, Senior Environmental Planner, at (213) 897-5912. Thank you for your interest in this Project.
