Notice of Availability of Draft Initial Study with Proposed Negative Declaration

Dear Executive Director:

The California Department of Transportation (Caltrans) proposes to upgrade existing bridge rails on Dry Creek Bridge (Bridge ID 21-0014) at PM 16.48, Perfume Creek Bridge (Bridge ID 21-0051) at PM 17.81, and California Drive Undercrossing Bridge (Bridge ID 21-0047) at PM 19.04 on SR 29 in Napa County to meet current crash and safety standards. All three bridges would be widened as well in order to attain standard shoulder widths. Work on Dry Creek Bridge and Perfume Creek Bridge would include reconstructing or extending wing walls, while work on California Drive Undercrossing Bridge would include retaining wall replacement. Meeting these standards would promote the protection of the traveling public by enhancing the reliability of the bridge rails. The Project would enhance corridor safety within the Project limits (Caltrans 2020e).

An electric copy of the Draft IS/ND is available at:
