

# Summary Form for Electronic Document Submittal

**Form F**

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: CITY OF ATWATER 1,2,3,-TCP MITIGATION PROJECT

Lead Agency: CITY OF ATWATER

Contact Name: GREG THOMPSON

Email: gthompson@atwater.org Phone Number: 209-357-6342

Project Location: ATWATER MERCED  
*City* *County*

Project Description (Proposed actions, location, and/or consequences).

The City proposes to install Wellhead Treatment Centers at various locations throughout the City to treat TCP levels in the public water system. The project will include construction of the individual Wellhead Treatment Centers and associated piping to the existing wells for raw and treated water. The project will provide healthier drinking water the the Cities customers.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The project is to provide a healthier drinking water supply to the customers of Atwater. Treatment of the existing wells in the public water system will be through Wellhead Treatment Centers connected through the proposed raw and treated pipe network. The construction of the pipe network will take place in existing public right of ways and will have a less than significant impact on the environment only during the construction phase of the project. No mitigation is required for the construction of the pipe network.

Property acquisition is required to provide an appropriate area for construction and operation of the Wellhead Treatment Centers. The

Construction of the Wellhead Treatment Centers will comply with existing Federal, State and Local regulations regarding construction activities and will require no mitigation. Ongoing operation of the Wellhead Treatment Centers will also comply with Federal, State and Local regulations and require no mitigation.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

Provide a list of the responsible or trustee agencies for the project.

Agency	Action
<b>State</b>	
State of California Central Valley Regional Water Quality Control Board	Approval
California Department of Water Resources	Approval
California Department of Fish and Wildlife	Review
San Joaquin Valley Air Pollution Control District	Review
Pacific Gas & Electric	Review
<b>Local</b>	
City of Atwater	Implementation and oversight of MMRP Issuance of Building Permits, Issuance of Encroachment Permits
City of Atwater City Council	Approval of Project Adoption of ND or MND Adoption of MMRP (if required)
Atwater Elementary School District (AESD)	Review Approval of Property Purchase
Merced Irrigation District (MID)	Review
Merced Irrigated-Urban Groundwater Sustainability Agency (GSA)	Review
