2220 Tulare Street (corner of Tulare and "M") Suite "A", Fresno, CA 93721

PROJECT TITLE: Environmental Review No. 8089

PROJECT APPLICANT/SPONSOR: Christian Montoya, Design Division

PROJECT LOCATION – COUNTY: The project site is located along Lincoln Avenue between State Route 145 and S. Fig Avenue (SUP. DIST. 1)

DESCRIPTION OF PROJECT: The project proposes to improve existing road conditions along Lincoln Avenue from State Route 145 (SR 145) to S. Fig Avenue. Lincoln Avenue between SR 145 and the Grantland Avenue Alignment will include the recycling of the existing road's surface using a Cold Central Plant Recycling technique and adding paved 4-foot wide shoulders, traffic striping and shoulder backing. Along Lincoln Avenue at the Grantland Avenue Alignment to S. Fig Avenue, the project will place an asphalt concrete overlay on the existing road's surface and add traffic striping and shoulder backing.

NAME OF PUBLIC AGENCY APPROVING PROJECT: Fresno County Board of Supervisors,
Department of Public Works and Planning, Community Development Division.

NAME OF PERSON OR AGENCY CARRYING OUT PROJECT: Fresno County Department of Public Works and Planning, Design Division

EXEMPT STATUS: Categorical exemption: Section 15301(c), *Existing Facilities*

REASONS WHY THE PROJECT IS EXEMPT: The subject application proposes to maintain and minorly alter existing right-of-way. The project will not affect existing flood hazard areas or hazardous material/waste facilities. There is no expansion of lanes for the existing right-of-way, therefore no impacts to air quality or greenhouse gas emissions are expected. Work will be confined to the existing right-of-way which indicates previous ground-disturbance, and can be seen that the project site does not affect cultural or historical resources. There are no special status species or other important biological resources that would be negatively impacted by the project.
