U.S. Highway 101 Cordilleras Creek Bridge Replacement Project

Please join the California Department of Transportation (Caltrans) by accessing this online meeting via the link provided above, or by dialing into the meeting at the number provided. Caltrans proposes to replace the existing Cordilleras Creek Bridge on United States Highway 101 in the City of Redwood City in San Mateo County at Post Mile 7.13. The existing bridge is at the end of its service life and in need of replacement. The project will be constructed in six stages in order to maintain 6 general-purpose traffic lanes in each direction on U.S. 101 during construction activities.

Caltrans has prepared a Draft Initial Study with Proposed Mitigated Negative Declaration and Environmental Assessment (IS/EA) for the proposed project. It is available online at <https://dot.ca.gov/caltrans-near-me/district-4/d4-popular-links/d4-environmental-docs>.

The open house will include a presentation providing an overview of the project and the environmental process, followed by a question and answer session where attendees can submit questions via online chat. However all formal comments on the IS/EA must be submitted in writing.

Please submit your written comments by the deadline of **August 31, 2020**.
