Agriculture

Project Description: (please use a separate page if necessary)

The Sacramento Weir Widening Project includes constructing a 1,500-foot-long passive weir, with associated levee, roadway, rail, and fish passage improvements. Many of the improvements that are part of the Project were analyzed in the American River Common Features General Reevaluation Report (ARCF GRR) Final Environmental Impact Statement/Environmental Impact Report (EIS/EIR) (SCH # 2005072046). This Supplemental EIS/EIR is needed because some elements of the Project (passive weir design and fish passage structure) were not analyzed in the ARCF GRR Final EIS/EIR because design had not yet been sufficiently developed to accurately assess its potential environmental impacts.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
