Project Description:

A proposal to redevelop an existing 2.9-acre multi-tenant commercial shopping center with 32, two-story detached residential condominium units and related site improvements. The units will range from 1,891 to 2,050 square feet in size, will have three or four bedrooms, an attached two-car garage, and private yard space. The units are configured in six, four-unit clusters around common motor court areas, with some units situated on interior road segments. A common space park is provided in the center of the development containing amenities, including a shade structure, picnic tables, double sided fireplace, and barbeque. A total of 64 garage spaces and 28 open guest parking spaces are provided on site. The project includes a zone change from Limited Business (C-1) to Multiple-family Residential (Specific Plan) [R-3(SP)]. The zone change would bring the site's zoning into consistency with its residential General Plan land use designation. The proposal also involves an amendment to the Orange Olive Specific Plan, which was originally developed to accommodate a 25 unit detached residential development on 2.33 acres, located one parcel to the north of the subject site, referred to as Phase I. The amendment is proposed to expand the Orange Olive Specific Plan boundaries to incorporate the proposed project, referred to as Phase II into the Specific Plan area. The proposal also includes a Tentative Tract Map for condominium purposes to establish private and common use areas.

This is to advise that the **City of Orange**, acting as the Lead Agency Responsible Agency, has approved the above described project on December 8, 2020 relying on Subsequent Mitigated Negative Declaration No. 1865-19 and has made the following determinations:
