Project Title: Rubidoux Community Services District PFAS Treatment Facility Project

Project Location: The proposed project site is located along 34<sup>th</sup> Street, near the intersection of 34<sup>th</sup> Street and Crestmore Road in the City of Jurupa Valley, CA 92509.

Project Location - City: City of Jurupa Valley

Project Location - County: Riverside County

**Description of Nature, Purpose,**

**and Beneficiaries of the Project:** The Rubidoux Community Services District (District) proposes to install a new ion exchange (IX) treatment system and associated appurtenances at the District's existing MN Plant #2 site that will treat the following contaminants: PFOA (to below the California Notification Limit [CA NL] of 5.1), PFOS (to below the California Notification Limit [CA NL] of 6.5), and manganese (to below the maximum contaminant limit [MCL] of 50 µg/L, specifically below 20 µg/L).

Name of Public Agency Approving Project: Rubidoux Community Services District

Exempt Status: (Check One)

- Ministerial (Sections 21080(b)(1); 15268)
- Declared Emergency (Sections 21080(b)(3); 15269(a))
- Emergency Project (Sections 21080(b)(4); 15269(b))
- Categorical Exemption (Section 15301(b) and Section 15303(e))

Reasons why project is exempt: The State CEQA Guidelines provide a series of categorical exemptions for projects that have been deemed to have minimal impacts on the environment. The proposed project consists of installing an IX water treatment system and associated appurtenances at the District's MN Plant #2 located in the City of Jurupa Valley. Based on an analysis of the proposed project, the District has determined that it has no potential to cause significant adverse effects on the environment and will allow the District to continue delivery of potable water to their customers without significant adverse impact. Categorical Exemption Class 1 exempts "the operation, repair, maintenance, permitting, leasing, licensing, or minor alteration of existing public or private structures, facilities, mechanical equipment...involving negligible or no expansion of use beyond that existing at the time of the lead agency's determination. (b) Existing facilities of both investor and publicly owned utilities used to provide electric power, natural gas, sewerage, or other public utility services....(f) Addition of safety or health protection devices for use during construction of or in conjunction with existing structures and facilities, or mechanical equipment..." and Categorical Exemption Class 3 exempts "construction and location of limited numbers of new, small facilities or structures; installation of small new equipment and facilities in small structures...(e) accessory (appurtenant) structures including garages, carports, patios, swimming pools and fences." The exceptions to the issuance of Categorical Exemptions have been evaluated for the proposed project, and the proposed project has been determined not to have a potential to cause significant adverse environmental effects as a result of any of the exceptions. Therefore, this proposed action is not forecast to cause any potential for significant adverse environmental impacts and qualifies with the requirements for both Class 1 and Class 3 Exemptions.
