Lead Agency Contact: Stephanie Cormier, Principal Planner; (530) 666-8041

Project Location: 44090 County Road 28H, Woodland, CA 95776 (APN: 042-140-006)

Project Description: The Project is subject to an Addendum Environmental Impact Report #1 (Addendum EIR) based on the previously certified 2021 Yolo County Central Landfill Permit Revisions EIR (SCH #2020080465), certified on November 9, 2021. The Addendum EIR was adopted by the Yolo County Board of Supervisors on April 18, 2023, to authorize an increase of the annual maximum throughput at Compost Facility #2 to 260,000 tons per year with a daily peak tonnage of 1,500 tons per day. These increases are found to be consistent with the increased daily permitted tonnage analyzed in the 2021 EIR, which provided for a monthly average of 2,500 tons per day with a daily peak of 3,000 tons per day.

Notice: This is to advise that on April 18, 2023, the Yolo County Board of Supervisors adopted Addendum #1 to the 2021 Yolo County Central Landfill Permit Revisions EIR. Pursuant to Section 21152 of the PRC and Section 15094 of the CEQA Guidelines, the following determinations have been made:

1. The project will not cause a new significant effect on the environment or substantially increase the severity of a previously identified significant environmental effect.
2. An Addendum Environmental Impact Report was prepared for this project pursuant to the provisions of CEQA and adopted by the County.
3. Mitigation measures were not required for the approval of the project.
4. A statement of Overriding Considerations was not adopted for this project.

This is to certify that the Addendum Environmental Impact Report, and the record of project approval, are available to the general public at the Yolo County Department of Community Services, 292 West Beamer Street, Woodland, CA 95695, (530) 666-8041, stephanie.cormier@yolocounty.org.
