Project Title: Sycamore Avenue Trunk Sewer Replacement Project

Lead Agency: City of Hercules

Contact Name: Steve Brown

Email: Steve@smbenvironmental.com Phone Number: 916-517-2189

Project Location: City of Hercules Contra Costa County
City *County*

Project Description (Proposed actions, location, and/or consequences).

The Proposed Project would consist of the replacement of approximately 5,500 linear feet of existing 20- to 24-inch diameter sewer trunk main with new 27- to 36-inch diameter pipelines. The purpose of the Proposed Project is to replace or rehabilitate the trunk sewer while meeting capacity requirements and allowing for future maintenance. In general, due to physical constraints such as property ownership, wetland locations, deep pipe and adjacent trees and retaining walls, the trunk sewer will be replaced in the existing horizontal alignment except where this is not feasible or practical.

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

Standard air quality, construction best management practices, cultural resources, traffic and noise avoidance mitigation measures would reduce any potential significant impacts to less than significant levels.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

No known areas of controversy(s).

Provide a list of the responsible or trustee agencies for the project.
