Project Title: Countywide Sediment Reduction from Developed Parcels and Rural Roads (Program)

Project Locations – Specific Projects will be implemented on a maximum of 25 total rural roads and/or private or public properties located within rural residential areas, agricultural lands, and/or forest lands of Santa Cruz County.

Project Locations – City: Unincorporated **Project Locations - County:** Santa Cruz County

Description of Nature, Purpose and Beneficiaries of Project: This Program works with local landowners, agencies, non-profits and road associations to implement Best Management Practices (BMPs) on rural roads and/or public and private properties in multiple Santa Cruz County Watersheds. The BMPs focus on improving water quality by decreasing erosion and reducing sediment loads. These projects will result in a decrease in sediments and other road-induced pollutants in waterways. The types of BMPS to be implemented include access road improvement (outsloping, critical dips, and rolling dips), structures for water control (inlet/outlet protection and ditch relief culverts), installation of trash racks, repairs and maintenance to existing culverts and critical area planting /vegetative erosion control, steam bank protection, rain gardens, water catchment and other low impact development practices.
