NID Hemphill Diversion Structure Project
Notice of Determination

NOTICE OF DETERMINATION

Project Approval: The Nevada Irrigation District (NID) approved the Hemphill Diversion Structure Project on July 28, 2021.

Project Location: The Hemphill Diversion Structure spans Auburn Ravine in Placer County, just east of the City of Lincoln. The structure is located in Section 13, Township 12 North, and Range 6 West (Mount Diablo Base and Meridian) of the "Lincoln" 7.5-minute quadrangle. The coordinates are latitude 38.896731° and longitude -121.251885°.

Project Description: The structure diverts water from Auburn Ravine into the Hemphill Canal, located south of the ravine, for delivery to NID raw-water customers. The diversion structure is an approximately eight-foot-high concrete structure, with an approximately 40-foot-long concrete apron extending downstream. It has been operated by NID since its purchase in 1933. Hemphill Diversion has been subject to damage during high flow events, has required ongoing maintenance, and is currently in need of additional repairs. The diversion structure has historically presented a substantial impediment to the passage of migrating anadromous fish species that spawn in Auburn Ravine upstream of the diversion.

NID considered three project alternatives to remove the diversion structure as an impediment to fish passage. The approved project, Alternative 2, will remove the diversion structure, stabilize the diversion site, construct a nature-like roughen rock ramp instream fish passage, install a fish screen, and implement improvements to a portion of the Hemphill Canal. The project is designed to allow anadromous fish to migrate past the Hemphill Diversion Structure site unimpeded.

Determination:

NID, as the Lead Agency, has approved the above-described Project and has made the following determinations:
