**Project Location (include county):** Auburn Boulevard at Arcade Creek between Winding Way and the Interstate 80 Ramp Intersections in the City of Sacramento in Sacramento County.

**Project Description:** The Project proposes to replace the existing structurally deficient bridge with a new bridge that meets current structural and geometric design standards, improves hydraulic capacity, and provides traffic-rated barrier railings. The proposed bridge replacement would also enhance the Auburn Boulevard and Winding Way intersection by adding an additional left turn pocket from westbound Auburn Boulevard to Winding Way. The proposed replacement bridge would be a single-span precast-prestressed concrete girder bridge, placed along the existing bridge alignment. The proposed bridge would be approximately 97 feet in width and would provide two 12-foot through vehicle lanes, two 11-foot through lanes, two 11-foot left turn lanes, and shoulders and sidewalks in each direction. The length of the proposed bridge would be approximately 89 feet to avoid the existing bridge foundations.

This is to advise that the City of Sacramento, Planning and Design Commission  / City Council  has approved the above described project on December 8, 2020 and has made the following determination regarding the above described project:

1. The project will  will not  have a significant effect on the environment.
