Document Description

NOTE: The Fish and Game Commission (Commission) proposes to amend sections 3.00, 4.00, 5.00, 5.41, 5.85, 7.00, 7.50, and 8.10 in Title 14, California Code of Regulations (CCR) and add sections 5.84, 5.89, and 7.40 to Title 14, CCR, related to inland sport fishing regulations

Most of the proposed changes involve re-organization of existing regulatory requirements, and others are restrictions placed on the take of trout, including total or partial closures, reduced bag limits, size limits of various kinds, and limitations on the methods of take. The purpose of these restrictions is to eliminate or reduce the sport fish harvest, to protect populations of threatened trout, or to enhance the trophy element of the catch.

The Commission will consider this action at a teleconference meeting scheduled on October 14, 2020. Background information and information on public participation may be found at www.fgc.ca.gov.
