Project Description: (please use a separate page if necessary)

The City of Palm Springs proposes to extend public sewer service with a new 10-inch diameter public sewer main within and along Indian Canyon Drive from Tramview Road to Garnet Avenue to a commercial and industrial area of the City located north of the Whitewater River. The new sewer line will be constructed at a depth of 10 feet or more, and consisting of 11,800 linear feet of Vitrified Clay Pipe (VCP). The new public sewer main will extend underneath the Union Pacific Railroad Company (UPRR) tracks and right-of-way and a proposed new Indian Canyon Drive bridge structure with 800 linear feet of 10-inch diameter Polyvinyl Chloride (PVC) pipe within and underneath the bridge approaches, and 400 linear feet of 10-inch diameter Ductile Iron Pipe (DIP) within an 18-inch diameter steel pipe encasing.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
