STATE CLEARINGHOUSE

Good Morning,

SCH #2020090519

The California Highway Patrol, Golden Gate Division, received the "Notice of Preparation" for environmental review of Plan Bay Area 2050. After review, we have a number of concerns regarding the potential impact this plan may have on traffic safety and departmental operations in the future.

At issue are the transportation strategies, proposed vehicular infrastructure changes and the legality of Automated Speed Enforcement. There is currently no provision of law which permits the automated enforcement of speed violations within California, thus legislative change would be required.

The focus of the California Highway Patrol is traffic safety therefore, in order to further address our concerns on these matters, we request inclusion in any future stakeholder meetings relating to the Plan Bay Area 2050.

Let me know if you need further. Sorry for the delay.

Thanks,
Lieutenant K. White
CHP Golden Gate Division
