

Harvard-Westlake River Park Project

Environmental Case: ENV-2020-1512-EIR
State Clearinghouse No.: 2020090536

Project Location: 4047-4155 N. Whitsett Avenue; 12506-12630 W. Valley Spring Lane, Los Angeles, CA 91604; and Assessor Parcel Number [APN] 2375-018-903

Community Plan Area: Sherman Oaks - Studio City - Toluca Lake - Cahuenga Pass

Council District: 4 - Raman

Project Description: The Harvard-Westlake River Park Project (Project) involves the redevelopment of the approximately 16.1-acre (701,428 square foot) Weddington Golf & Tennis site, and an adjacent approximately 1.1-acre (47,916 square foot) portion of property along the Los Angeles River leased from Los Angeles County, collectively comprising an approximately 17.2-acre (749,344 square foot) project site (Project Site), for use as an athletic and recreational facility for the Harvard-Westlake School and for shared public use. The Project would remove the existing golf course, driving range, and tennis facility to develop two athletic fields with bleacher seating, an 80,249-square-foot, two-story multi-purpose gymnasium with a maximum height of 30 feet, a 52-meter swimming pool with seating, eight tennis courts with seating, one level of below-grade parking and a surface parking lot. The Project would include ancillary field buildings, three security kiosks, exterior light poles, walls/fencing, and retention of the existing clubhouse structure, putting green, low brick retaining wall with weeping mortar, and golf ball-shaped light standards. The Project would remove 240 of the existing 421 trees and plant 393 new trees. The Project would include a one million-gallon stormwater capture and reuse system for water conservation and treatment purposes. The Project would also provide approximately 5.4 acres (235,224 square feet) of publicly-accessible open space and landscaped trails connecting to the adjacent Zev Yaroslavsky Los Angeles River Greenway (Zev Greenway) and would provide on-site landscaped areas, water features, and recreational facilities. The Project involves off-site improvements to the Valleyheart Drive public right-of-way, portions of the Zev Greenway adjacent to the Project Site, and an ADA compliant ramp to provide a pedestrian connection between the Zev Greenway and Coldwater Canyon Avenue northwest of the Project Site. Project development would require excavation and grading of the Project Site to a maximum depth of approximately 21 feet below grade and a net cut/fill volume of approximately 250,000 cubic yards.
