Present Land Use/Zoning/General Plan Designation: Public Facilities, Recreation

Project Description: (please use a separate page if necessary)
 Project consists of the realignment of a sewage force main, replacement of a gravity sewer line and improvements to the wastewater treatment plant (WWTP). The force main realignment will re-route from the First Street lift station, through the Public Parking Lot and continue to an existing manhole in Avila Beach Drive. The gravity main replacement includes replacement of a section of gravity main at the Avila Beach Drive/San Miguel Street intersection, extending to the existing WWTP. The proposed WWTP improvements would consist of a packaged Membrane Bioreactor (MBR) treatment plant, associated system piping, electrical and controls integration. This includes an up-size of the submersible pumps, re-coating of the influent wet well, new electric panel, retaining wall and concrete slab foundation, all within the existing WWTP footprint.

Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".
If you have already sent your document to the agency please denote that with an "S".
