Project Description: (please use a separate page if necessary)

Creation of an off-site wetlands mitigation area in the City of Santee to mitigate impacts resulting from the Hillside Meadows project located approximately 0.25 miles to the north of the project site. The proposed wetlands area is approximately 3 acres within a 45-acre parcel and is located south of the western terminus of Mast Boulevard. The project involves minor grading and installation of drainage improvements to convey stormwater runoff from the Hillside Meadows project to the proposed wetlands mitigation area.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.
