Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Hazardous characteristics of the waste(s) that have been or will be handled; 9) Prior to placing a new tank system or component in use, an independent, qualified installation inspector or an independent, qualified, professional engineer, registered in California, either of whom is trained and experienced in the proper installation of tank systems, shall inspect the system or component for the presence of any of the following items and document in writing the results of the inspection: A) Weld cracks or breaks; B) scrapes of protective coatings; C) corrosion; D) any structural damage or inadequate construction or installation such as cracks, punctures, damaged fittings. All discrepancies shall be documented in the assessment and remedied before the tank system

Violation Notes: Returned to compliance on 06/01/2017. OBSERVATION: Observed used oil drum without bung cap on. All hazardous waste containers shall be closed at all times except when adding or removing waste. CORRECTIVE ACTION: Immediately close these containers and ensure all hazardous waste containers are closed when not adding or removing waste.

Violation Division: Los Angeles County Fire Department  
Violation Program: HW  
Violation Source: CERS

Site ID: 423582  
Site Name: AUTO MAD/LA TINT  
Violation Date: 08-22-2019  
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)

Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.

Violation Notes: Returned to compliance on 11/20/2019. OBSERVATION: Observed 10 x 55-gal drums containing used oil, used antifreeze and used filters per owner, located outside the West side of the building that were observed without hazardous waste labels. CORRECTIVE ACTION: Submit a photo to this division demonstrating that the containers listed above have been properly labeled.

Violation Division: Los Angeles County Fire Department  
Violation Program: HW  
Violation Source: CERS

Site ID: 423582  
Site Name: AUTO MAD/LA TINT  
Violation Date: 05-19-2016  
Citation: 40 CFR 1 265.201(c)(3) - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.201(c)(3)

Violation Description: Failure to conduct daily tank inspection of the discharge systems, monitoring equipment, and tank levels.

Violation Notes: Returned to compliance on 06/01/2017. OBSERVATION: Generator failed to maintain and operate the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or non-sudden release of hazardous waste or hazardous waste constituents to the air, soil, or surface water which could threaten human health or the environment. Observed accumulation of antifreeze on ground surface as well as used motor oil by car parts stored on ground. CORRECTIVE ACTION: Owner/Operator shall immediately maintain the facility to minimize the possibility of a fire, explosion, or any unplanned sudden or

Violation Date: 05-19-2016  
Citation: HSC 6.95 25508(d) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(d)

Violation Description: Failure to complete and/or electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.

Violation Notes: Returned to compliance on 06/21/2017. OBSERVATION: A business plan has not been received by the CUPA. The facility was previously sent a notice/request from the CUPA for the submittal of a business plan. CORRECTIVE ACTION: Submit the business plan electronically in the California Environmental Reporting System (CERS) and implement immediately.

Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173

Violation Description: Failure to meet the following container management requirements: (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

Violation Notes: Returned to compliance on 11/20/2019. OBSERVATION: 2 x 55-gal drums of used oil located outside the West side of the building were observed open and with missing bung caps. The oil level appeared to be at the top of the drum and some oil was on top of the drum. CORRECTIVE ACTION: Submit photos to this division demonstrating that the containers listed above have been properly closed.

Violation Notes: to air, soil, or surface water which could threaten human health or the environment.  
Returned to compliance on 11/20/2019. OBSERVATION: Used oil was observed accumulating on top of several hazardous waste drums and on the asphalt outside the West side of the building in the hazardous waste accumulation area. Employees had placed some absorbent on the ground around the drums but the amount of absorbent was not adequate to the amount of oil and they did not clean up the used absorbent. CORRECTIVE ACTION: Submit photos/documentation to this division demonstrating the spill has been properly removed, managed and the area is being properly maintained.

Violation Date: 05-19-2016  
Citation: 22 CCR 15 66265.32 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.32

Violation Description: Failure of the facility to maintain the following emergency equipment or equivalents: 1) An internal communications or alarm system capable of providing immediate emergency instruction (voice or signal) to facility personnel; 2) A device, such as a telephone (immediately available at the scene of Operations/ Maintenance ) or a hand-held two-way radio, capable of summoning emergency assistance from local police departments, fire departments, or State or local emergency response teams; 3) Portable fire extinguishers, fire control equipment (including special extinguishing equipment, such as that using foam, inert gas, or dry chemicals), spill control equipment, and decontamination equipment; and 4) Water at adequate volume and pressure to supply water hose streams, or foam producing equipment, or automatic sprinklers, or water spray systems.

Violation Notes: Returned to compliance on 06/01/2017. OBSERVATION: Generator failed to maintain aisle space to allow the unobstructed movement of personnel, fire protection, spill control equipment, and decontamination equipment to all areas of facility operation in an emergency and/or failed to demonstrate to the CUPA that aisle space is not needed for any of these purposes. Observed inadequate aisle space where used oil/waste antifreeze is stored. CORRECTIVE ACTION: Owner/Operator shall immediately maintain aisle space to allow the unobstructed movement of personnel, fire protection, spill control equipment, and decontamination equipment to any area of facility operation in an emergency or demonstrate to the CUPA that aisle space is not needed for any of these purposes.

Site Name: AUTO MAD/LA TINT  
Violation Date: 08-22-2019  
Citation: 40 CFR 1 265.35 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.35

Violation Description: Failure to maintain aisle space to allow the unobstructed movement of personnel, fire protection equipment, spill control equipment, and decontamination equipment to any area of facility operation in an emergency, unless aisle space is not needed for any of these purposes.

Violation Notes: Returned to compliance on 11/20/2019. OBSERVATION: The hazardous waste storage area located outside the West side of the building did not have adequate aisle space allowing for unobstructed movement of emergency equipment and inspection of all hazardous waste containers. CORRECTIVE ACTION: Submit photos to this division demonstrating that adequate aisle space has been provided.

Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)

Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violation Notes: Returned to compliance on 11/20/2019. OBSERVATION: The business did not provide adequate employee training and does not maintain records of employee training. CORRECTIVE ACTION: Provide all employees with required training that includes: emergency notification procedures, safe handling of hazardous materials, proper use of emergency response equipment and evacuation plans and procedures. Maintain records of training available for 3 years.

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

CERS Description: Chemical Storage Facilities

Violations:

Site ID: 128817  
Site Name: LASD - CRIME LAB LANCASTER  
Violation Date: 12-21-2017  
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)

Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violation Notes: Returned to compliance on 12/27/2017. OBSERVATION: The business did not provide one or more of the following: initial employee training, adequate employee training, annual employee training and/or maintain records of employee training. CORRECTIVE ACTION: Provide all employees with required training that includes: safe handling hazardous materials, emergency response procedures, and proper use of emergency response equipment. Maintain records of training available for 3 years.

Site ID: 128817  
Site Name: LASD - CRIME LAB LANCASTER  
Violation Date: 12-21-2017  
Citation: HSC 6.5 25123.3(h) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)

Violation Description: Failure to determine the status of any hazardous waste if a signed copy of the manifest isnG t received within 35 days of the date the waste was accepted by the initial transporter and/or to submit an Exception Report to DTSC if a signed copy of the manifest isnG t received within 60 days of the date the waste was accepted by the initial transporter.

Violation Notes: Returned to compliance on 12/29/2017. OBSERVATION: The generator failed to determine the status of a uniform hazardous waste manifested shipment within 35 days from the date the waste was shipped. Final signed copy of manifest number 014188981JJK dated 5/8/15 was not available, and an exception report filed with DTSC regarding this waste shipment was not availble. CORRECTIVE ACTION: Submit documentation to the CUPA demonstrating that the generator has determined the status of the hazardous wate manifest shipment for manifest number 014188981JJK dated 5/8/15.

Violation Description: 6.95, Section(s) 25508(a)(1)  
Failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.

Violation Notes: Returned to compliance on 01/30/2018. OBSERVATION: The business failed to complete and electronically submit a business plan when handling hazardous materials at or above the reportable threshold quantities. Facility is handling/storing 8 x 300 cubic foot cylinders of high purity helium in the outside storage room at North West corner of building. CORRECTIVE ACTION: Complete and electronically submit a hazardous materials business plan with all required information. The business plan shall contain the following information submitted through CERS: business activities page, business owner/operator identification page, hazardous materials inventory, site map, emergency response plan and employee training plan.

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violations:

Site ID: 116778  
Site Name: FIVE STAR AUTO BODY  
Violation Date: 04-17-2019  
Citation: HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)  
Violation Description: Failure to complete and electronically submit a site map with all required content.  
Violation Notes: Returned to compliance on 05/22/2019. OBSERVATION: The business failed to complete and electronically submit a site map with all required content. Site map uploaded in CERS is missing the emergency shut offs (electrical, water, natural gas). CORRECTIVE ACTION: Complete and electronically submit a site map with all required content through CERS.  
Violation Division: Los Angeles County Fire Department  
Violation Program: HMRRP  
Violation Source: CERS

Site ID: 116778  
Site Name: FIVE STAR AUTO BODY  
Violation Date: 04-17-2019  
Citation: HSC 6.5 25123.3(h) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)  
Violation Description: Failure to determine the status of any hazardous waste if a signed copy of the manifest isnG t received within 35 days of the date the waste was accepted by the initial transporter and/or to submit an Exception Report to DTSC if a signed copy of the manifest isnG t received within 60 days of the date the waste was accepted by the initial transporter.  
Violation Notes: Returned to compliance on 05/01/2019. OBSERVATION: The generator failed to determine the status of hazardous waste shipments within 35 days from the date the wastes were shipped. Observed no final designated facility signed copies of the following manifests: 016996653JJK dated 5/1/17, 016997976JJK dated 6/2/17 and 019540736JJK dated 10/31/18. CORRECTIVE ACTION: Submit documentation/manifests to this division demonstrating that the generator has determined the status of the hazardous waste manifests noted above.

 Site ID: 44059  
 CERS ID: 10291543  
 CERS Description: Hazardous Waste Generator

**Violations:**

Site ID: 44059  
 Site Name: LEO'S AUTO BODY WORKS  
 Violation Date: 11-10-2016  
 Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)  
 Violation Description: Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.  
 Violation Notes: Returned to compliance on 04/27/2017. OBSERVATION: Copies of hazardous waste disposal records for were not found on site. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. CORRECTIVE ACTION: Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the CUPA.  
 Violation Division: Los Angeles County Fire Department  
 Violation Program: HW  
 Violation Source: CERS

Site ID: 44059  
 Site Name: LEO'S AUTO BODY WORKS  
 Violation Date: 11-10-2016  
 Citation: HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)  
 Violation Description: Failure to establish and electronically submit an adequate emergency response plan and procedures for a release or threatened release of a hazardous material.  
 Violation Notes: Returned to compliance on 04/27/2017. OBSERVATION: An Emergency Response Plan and procedures has not been completed and submitted electronically to the CUPA. CORRECTIVE ACTION: Complete the emergency response plan and procedures to include all required content and submit electronically in the California Environmental Reporting System (CERS).

Environmental Interest/Information System:

AIR EMISSIONS CLASSIFICATION UNKNOWN  
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.  
STATE MASTER

Site History: The case was opened following an unauthorized release from an underground storage tank system at the subject site. Corrective action is underway as overseen by the Lahontan Regional Water Quality Control Board. Corrective action may consist of preliminary site investigation, planning and implementation of remedial action, verification monitoring, or a combination thereof. A summary of the site history is available by clicking on either the "Cleanup Status History", "Regulatory Activities" or the "Site Maps/Documents" tab. For a complete site history the case file at the Lahontan Regional Water Quality Control Board should be consulted.

Violations:

Site ID: 129604  
Site Name: H-Petro Inc.  
Violation Date: 10-08-2019  
Citation: 23 CCR 16 2712(b)(1)(G) - California Code of Regulations, Title 23, Chapter 16, Section(s) 2712(b)(1)(G)

Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1, - 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1, - 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.

Violation Notes: Returned to compliance on 06/10/2020. MISSING OVERFILL PREVENTION EQUIPMENT INSPECTION RESULTS FOR DIESELMUST BALL FLOAT. Los Angeles County Department of Public Works

Violation Description: Failure to comply with one or more of the following overfill prevention equipment requirements: Alert the transfer operator when the tank is 90 percent full by restricting the flow into the tank or triggering an audible and visual alarm; or Restrict delivery of flow to the tank at least 30 minutes before the tank overfills, provided the restriction occurs when the tank is filled to no more than 95 percent of capacity; and activate an audible alarm at least five minutes before the tank overfills; or Provide positive shut-off of flow to the tank when the tank is filled to no more than 95 percent of capacity; or Provide positive shut-off of flow to the tank so that none of the fittings located on the top of the tank are exposed to product due to overfilling. Install/retrofit overfill prevention equipment that does not use flow restrictors on vent piping to meet overfill prevention equipment requirements when the overfill prevention equipment is installed, repaired, or replaced on and after October 1,- 2018. For USTs installed before October 1, 2018, perform an inspection by October 13, 2018 and every 36 months thereafter. For USTs installed on and after October- 1,- 2018, perform an inspection at installation and every 36 months thereafter. Inspected within 30 days after a repair to the overfill prevention equipment. Inspected using an applicable manufacturer guidelines, industry codes, engineering standards, or a method approved by a professional engineer. Inspected by a certified UST service technician. Maintain records of overfill prevention equipment inspection for 36 months.

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Section(s) 25298

Violation Description: UST system was abandoned or not properly closed, or failure to comply with all permanent closure requirements.

Violation Notes: Not reported

Violation Division: Los Angeles County Department of Public Works

Violation Program: UST

Violation Source: CERS

Site ID: 53555

Site Name: OIL RITE

Violation Date: 12-02-2016

Citation: 22 CCR 15 66265.192(a) - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.192(a)

Violation Description: Failure to obtain and maintain a written assessment reviewed and certified by an independent, qualified, professional engineer prior to placing the tank system in service. The written assessment shall state that, the new hazardous waste tank system has sufficient structural integrity, is acceptable for the transferring, storing and treating of hazardous waste, and that the tanks and containment system including the foundation, structural support, seams, connections, and pressure controls (if applicable) are suitably designed to meet the regulation.

Violation Notes: Returned to compliance on 02/09/2017. OBSERVATION: Owner/Operator does not have a tank assessments for the used oil tanks (300 gallons and ~110 Gallons). The owner or operator of a hazardous waste tank shall obtain a written assessment reviewed and certified by an independent, qualified, professional engineer, registered in California attesting that the system has sufficient structural integrity, is acceptable for the transferring, storing, and treating of hazardous waste, and that the tanks and containment system are suitably designed. CORRECTIVE ACTION: Immediately have an assessment prepared for the above mentioned tanks. Submit a schedule showing when this will be accomplished.

Site Name: OIL RITE

Violation Date: 07-15-2020

Citation: 22 CCR 15 66265.16 - California Code of Regulations, Title 22, Chapter 15, Section(s) 66265.16

Violation Description: Failure to provide employees with hazardous waste training program of class room instructions or on-the-job training within the first six months after the date of their employment or assignment to a facility, or to a new position at a facility and annually thereafter. Training records on current personnel shall be kept until closure of the facility and for former employees the record shall be kept for at least three years from the date the employee last worked at the facility. The records shall include the following: the job title for each position at the facility related to hazardous waste management, and the name of the employee filling each job; a written job description for each position, duties of facility personnel assigned to each position, and a written description of the type and amount of both introductory and continuing training that will be given to each person filling a position.

Violation Notes: Returned to compliance on 08/14/2020. OBSERVATION: Employee training documentation as required by 22 CCR 66265.16(d) was not available at

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

 Longitude: -118.134799  
 Case Type: Cleanup Program Site  
 Case Worker: TFB  
 Local Agency: Not reported  
 RB Case Number: 6B190038  
 File Location: Regional Board  
 Potential Media Affected: Indoor Air, Soil, Soil Vapor  
 Potential Contaminants of Concern: Tetrachloroethylene (PCE), Trichloroethylene (TCE)  
 Site History: This Mission Linen site in Lancaster is a former dry cleaning facility where groundwater has been impacted primarily by tetrachloroethylene (PCE). The maximum groundwater concentration detected during the 4th quarterly sampling event in 2016 was 1100 micrograms per liter. The maximum concentration of PCE in groundwater detected in the 2nd quarter of 2018 sampling was 350 micrograms per liter. Soil vapor extraction was conducted from x to present to remediate the vadose zone. An in situ remediation pilot test was conducted at Mission Linen, Lancaster using an off-the-shelf in situ chemical reduction (ISCR) reagent called EHC produced by PeroxyChem. EHC is composed of controlled-release carbon, zero valent iron (ZVI) particles, and nutrients used for the in situ treatment of groundwater. The timeframe of the pilot test was approximately 1 year with performance monitoring incorporated into the ongoing quarterly (later switched to semiannual) groundwater sampling program. Pilot test activities included the following: baseline sampling, injection of the EHC reagent along with the Dhc bacteria and dye in October 2017, one quarter of monthly samples, followed by 3 quarterly sampling events. More specifically, injection was performed in accordance with the revised work plan addendum (02/28/17, Apex):

**MISSION LINEN SUPPLY (Continued)**

**S111417964**

3,250 pounds of EHC, 1,200 gallons of anaerobic water, 16 liters of Dhc inoculum, and 1 pint of tracer dye. These materials were injected into 3 sonic boreholes: 2 borings angled under the building and 1 vertical borehole. Based on the pilot test, Apex concluded the radius influence of the ISCR injections was less than 10 feet and recommended not applying the technology at a larger scale at the site. In January 2019, Water Board staff agreed to reducing the groundwater monitoring frequency from quarterly to semiannual, with sampling events during the 2nd and 4th quarters.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Date: 05-20-2016  
Citation: HSC 6.95 25508(d) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(d)

Violation Description: Failure to complete and/or electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.

Violation Notes: OBSERVATION: A business plan has not been received by the CUPA. The facility was previously sent a notice/request from the CUPA for the submittal of a business plan by the compliance date. CORRECTIVE ACTION: Submit a complete, accurate business plan electronically in the California Environmental Reporting System (CERS) and implement immediately.

**Violations:**

Site ID: 438055  
 Site Name: ALAMEDA BODY WORK  
 Violation Date: 08-17-2017  
 Citation: HSC 6.95 25508(a)(1) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(1)  
 Violation Description: Failure to complete and electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.  
 Violation Notes: Returned to compliance on 10/16/2017. OBSERVATION: The business failed to complete and electronically submit a business plan when handling hazardous materials at or above the reportable threshold quantities. CORRECTIVE ACTION: Complete and electronically submit a business plan.  
 Violation Division: Los Angeles County Fire Department  
 Violation Program: HMRRP  
 Violation Source: CERS

Site ID: 438055  
 Site Name: ALAMEDA BODY WORK  
 Violation Date: 08-17-2017  
 Citation: 40 CFR 1 265.171 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.171  
 Violation Description: Failure to accumulate hazardous waste in a container that is in good condition.  
 Violation Notes: Returned to compliance on 10/16/2017. OBSERVATION: Provide containers which are in good condition for all hazardous wastes generated. CORRECTIVE ACTION: Submit photos to the CUPA demonstrating the waste listed above has been transferred into a container that is in good condition or submit a manifest/receipt demonstrating the waste has been properly disposed of by a registered hazardous waste transporter.

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**Violations:**  
 Site ID: 514037  
 Site Name: Mister Car Wash - Avenue J  
 Violation Date: 03-05-2019  
 Citation: HSC 6.95 25508.1(a)-(f) - California Health and Safety Code, Chapter 6.95, Section(s) 25508.1(a)-(f)  
 Violation Description: Failure to electronically update business plan within 30 days of any one of the following events: A 100 percent or more increase in the quantity of a previously disclosed material. Any handling of a previously undisclosed hazardous materials at or above reportable quantities. A change of business address, business ownership, or business name. A substantial change in the handler's operations that requires modification to any portion of the business plan.  
 Violation Notes: Returned to compliance on 07/09/2019. OBSERVATION: The business failed to update business plan within 30 days of any handling of a previously undisclosed hazardous material. Observed 3 x 55-gal drums of hydraulic oil on-site in the chemical storage room that were not disclosed on the inventory.. CORRECTIVE ACTION: Update all submittal elements effected by the change and electronically submit the update through CERS within 30 days.

Site ID: 514037  
Site Name: Mister Car Wash - Avenue J  
Violation Date: 03-05-2019  
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)

Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violation Notes: Returned to compliance on 07/03/2019. OBSERVATION: The business did not maintain records of employee training available for review. CORRECTIVE ACTION: Provide all employees with required training that includes: safe handling of hazardous materials, emergency response procedures, proper use of emergency response equipment and evacuation plans and procedures. Maintain records of training available for 3 years.

**Environmental Interest/Information System:**

US National Pollutant Discharge Elimination System (NPDES) module of the Compliance Information System (ICIS) tracks surface water permits issued under the Clean Water Act. Under NPDES, all facilities that discharge pollutants from any point source into waters of the United States are required to obtain a permit. The permit will likely contain limits on what can be discharged, impose monitoring and reporting requirements, and include other provisions to ensure that the discharge does not adversely affect water quality.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Date: 10-06-2017  
Citation: 22 CCR 12 66262.34(d) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(d)  
Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.  
Violation Notes: Returned to compliance on 10/10/2017. OBSERVATION: 2 x 55-gallon drums of Used Oil stored outside along the South property wall were observed accumulating on-site for undetermined amount of time, and a manifest/receipt demonstrating disposal within the past 180 days was not available. Drum labels were faded/deteriorated and the last Used Oil pickup was 1/31/17. CORRECTIVE ACTION: Dispose of Used Oil and submit a copy of the manifest/receipt to the CUPA.  
Violation Division: Los Angeles County Fire Department  
Violation Program: HW  
Violation Source: CERS

Site ID: 65901  
Site Name: SCOTTS AUTO TECH  
Violation Date: 10-06-2017  
Citation: 22 CCR 12 66262.34(f) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(f)  
Violation Description: Failure to properly label hazardous waste accumulation containers and portable tanks with the following requirements: "Hazardous Waste", name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.  
Violation Notes: Returned to compliance on 10/06/2017. OBSERVATION: 2 x 55-gallon drums of Used Oil located outside along the South property wall were observed with faded/deteriorated hazardous waste labels. Provided owner with labels and the drums were labeled by end of inspection. Violation corrected on-site. CORRECTIVE ACTION: Maintain clearly legible hazardous waste labels with all required information on all hazardous waste accumulation containers.

**Environmental Interest/Information System:**

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Violation Date: 04-27-2018  
Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)

Violation Description: Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.

Violation Notes: Returned to compliance on 07/05/2018. OBSERVATION: Uniform hazardous waste manifests/consolidated disposal receipts for the waste sludge with solder dross, waste antifreeze and used oil were not available at the time of inspection. CORRECTIVE ACTION: Locate a copy of all manifests for the waste sludge with solder dross, waste antifreeze and

used oil and maintain copies available on-site for review for 3 years. Submit copies of the previous manifests/receipts to this division to verify compliance.

Violation Division: Los Angeles County Fire Department  
Violation Program: HW  
Violation Source: CERS

Site ID: 146079  
Site Name: RADIATOR KING  
Violation Date: 04-27-2018  
Citation: HSC 6.95 25507 - California Health and Safety Code, Chapter 6.95, Section(s) 25507

Violation Description: Failure to adequately establish and implement a business plan when storing/handling a hazardous material at or above reportable quantities.

Violation Notes: Returned to compliance on 04/27/2018. OBSERVATION: The business failed to establish and implement a business plan when handling hazardous materials at or above the reportable threshold quantities. Assisted owner Mr. Manuel Bravo with completing and submitting the entire hazardous materials business plan electronically through CERS. CORRECTIVE ACTION: This violation was corrected on-site at time of the inspection. Annually submit and certify the business plan electronically through the California Environmental Reporting System (CERS) on or before the annual due date.

Violation Division: Los Angeles County Fire Department  
Violation Program: HMRRP  
Violation Source: CERS

Site ID: 146079  
Site Name: RADIATOR KING  
Violation Date: 04-27-2018  
Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)

Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

Violation Notes: Returned to compliance on 08/23/2018. OBSERVATION: 1 x 55-gal drum ~3/4 full of waste sludge w/ solder dross, 1 x 55-gal drum full of used oil, 1 x 55-gal drum ~1/3 full of used oil and 1 x 30-gal drum ~2/3 full of waste antifreeze located along the South walls of unit 45137 Yucca Ave. and unit 45135 Yucca Ave., were observed with no accumulation start dates and a manifest/receipt demonstrating disposal within the past 180 days was not available. CORRECTIVE ACTION: Dispose of all hazardous waste accumulating on-site and submit a copy of the manifest/receipt to this division.

CERS ID: 10292563  
CERS Description: Chemical Storage Facilities

Violations:

Site ID: 165583  
Site Name: VALLEY ANATOMICAL PREPARATIONS  
Violation Date: 09-05-2019  
Citation: HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)

Violation Description: Failure to establish and electronically submit an adequate emergency response plan and procedures for a release or threatened release of a hazardous material.

Violation Notes: Returned to compliance on 10/08/2019. OBSERVATION: The business failed to submit adequate emergency response procedures. The emergency response plan submitted in CERS is missing the "local unified program agency" phone number (323-890-4317) on page 1 under section C. CORRECTIVE ACTION: Update and electronically submit adequate emergency response procedures within 30 days.

Violation Division: Los Angeles County Fire Department  
Violation Program: HMRRP  
Violation Source: CERS

Site ID: 165583  
Site Name: VALLEY ANATOMICAL PREPARATIONS

Citation: HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)

Violation Description: Failure to complete and electronically submit a site map with all required content.

Violation Notes: Returned to compliance on 10/08/2019. OBSERVATION: The business failed to complete and electronically submit a site map with all required content. Update the site map submitted in CERS with the following required information: North orientation, evacuation staging area, emergency shut offs (electrical, water and natural gas) and location of storm/sewer drains if applicable. CORRECTIVE ACTION: Complete and electronically submit a site map with all required content through CERS within 30 days.

Violation Division: Los Angeles County Fire Department  
Violation Program: HMRRP  
Violation Source: CERS

Site ID: 165583  
Site Name: VALLEY ANATOMICAL PREPARATIONS  
Violation Date: 09-05-2019  
Citation: HSC 6.95 25505(a)(4) - California Health and Safety Code, Chapter 6.95, Section(s) 25505(a)(4)

Violation Description: Failure to provide initial and annual training to all employees in safety procedures in the event of a release or threatened release of a hazardous material or failure to document and maintain training records for a minimum of three years.

Violation Notes: Returned to compliance on 10/04/2019. OBSERVATION: The business did not maintain records of employee training. CORRECTIVE ACTION: Provide all employees with required training that includes: safe handling of hazardous materials, emergency notification procedures, proper use of emergency response equipment and evacuation plans and procedures. Maintain records of training available for 3 years.

Citation: HSC 6.95 25508.1(a)-(f) - California Health and Safety Code, Chapter 6.95, Section(s) 25508.1(a)-(f)  
Violation Description: Failure to electronically update business plan within 30 days of any one of the following events: A 100 percent or more increase in the quantity of a previously disclosed material. Any handling of a previously undisclosed hazardous materials at or above reportable quantities. A change of business address, business ownership, or business name. A substantial change in the handler's operations that requires modification to any portion of the business plan.  
Violation Notes: Returned to compliance on 10/08/2019. OBSERVATION: The business failed to update business plan within 30 days of a 100 percent or more increase in the quantity of a previously disclosed material. Observed 2 x 55-gal drums of Smooth Cast 300 Part A and 2 x 55-gal drums of Smooth Cast 300 Part B along the North wall of the shop at the West side of the building. CORRECTIVE ACTION: Update all submittal elements effected by the changes and electronically submit the update through CERS within 30 days.

Environmental Interest/Information System:

AIR EMISSIONS CLASSIFICATION UNKNOWN  
California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.  
RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Citation: HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)  
Violation Description: Failure to complete and electronically submit a site map with all required content.  
Violation Notes: Returned to compliance on 01/26/2017. OBSERVATION: The annotated site map submitted to the CUPA does not include the following: 1. Emergency Shut-offs (gas, electric, etc). 2. Evacuation Staging Area. 3. Emergency Response Equipment (fire extinguishers, first aid kit, etc). CORRECTIVE ACTION: Revise the annotated Site Map to include all required content and submit electronically in the California Environmental Reporting System (CERS).

Citation: HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(a)(3)  
Violation Description: Failure to complete and electronically submit hazardous material inventory information for all reportable hazardous materials on site at or above reportable quantities.  
Violation Notes: Returned to compliance on 01/26/2017. OBSERVATION: The facility has not submitted an accurate Hazardous Materials Inventory Chemical Description page for the following chemicals: Observed acetylene, waste paint thinner and waste spray booth filters not in HM inventory. Also, observed waste ethylene glycol and waste motor oil listed as "ethylene glycol" and "motor oil" Maximum daily amounts are also inaccurate and should not be less than the size of the largest container. CORRECTIVE ACTION: Complete and submit the Hazardous Materials Inventory Chemical Description page for all materials listed above electronically in the California Environmental Reporting System (CERS).  
Violation Division: Los Angeles County Fire Department  
Violation Program: HMRRP

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Date: 04-22-2014  
Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)  
Violation Description: Failure to maintain uniform hazardous waste manifest, consolidated manifest, or bills of lading copies for three years.  
Violation Notes: Returned to compliance on 12/30/2015. OBSERVATION: Copies of hazardous waste disposal records for [whichever year(s)] were not found on site. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. Observed no current hazardous waste manifest on-site. CORRECTIVE ACTION: Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the CUPA by [date, 30 days from now].

content. The site map uploaded does not include: all of the buildings of the facility, North orientation, evacuation staging area, storm/sewer drains, emergency shut offs, all hazardous materials locations and all emergency equipment locations. CORRECTIVE ACTION: Complete and electronically submit a site map with all required content through CERS.

Violation Division: Los Angeles County Fire Department  
Violation Program: HMRRP  
Violation Source: CERS

Site ID: 129607  
Site Name: LANCASTER BODY & FRAME  
Violation Date: 08-21-2019  
Citation: HSC 6.95 25508.1(a)-(f) - California Health and Safety Code, Chapter 6.95, Section(s) 25508.1(a)-(f)

Violation Description: Failure to electronically update business plan within 30 days of any one of the following events: A 100 percent or more increase in the quantity of a previously disclosed material. Any handling of a previously undisclosed hazardous materials at or above reportable quantities. A change of business address, business ownership, or business name. A substantial change in the handler's operations that requires modification to any portion of the business plan.

Violation Notes: Returned to compliance on 10/24/2019. OBSERVATION: The business failed to update the hazardous materials business plan within 30 days of any handling of a previously undisclosed hazardous material. Observed 1 x 55-gal drum of used oil and 1 x 55-gal drum of used antifreeze on-site that have not been disclosed on the inventory. CORRECTIVE ACTION: Update all submittal elements effected by the change and electronically submit the update within 30 days.

Violation Date: 08-21-2019  
Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)

Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

Violation Notes: Returned to compliance on 10/15/2019. OBSERVATION: Facility is a small quantity generator and failed to send hazardous waste off-site for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles). Observed 1 x 55-gal drum ~1/2 full of used antifreeze accumulating on-site since 5/29/18 and no manifest was available from the previous 180 days. CORRECTIVE ACTION: Dispose of hazardous waste that has been stored over the applicable time limit and provide documentation that the violation has been corrected.

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**Environmental Interest/Information System:**

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Violation Date: 05-19-2016  
Citation: HSC 6.95 25508(d) - California Health and Safety Code, Chapter 6.95, Section(s) 25508(d)  
Violation Description: Failure to complete and/or electronically submit a business plan when storing/handling a hazardous material at or above reportable quantities.  
Violation Notes: Returned to compliance on 12/20/2017. OBSERVATION: A business plan has not been received by the CUPA. The facility was previously sent a notice/request from the CUPA for the submittal of a business plan. CORRECTIVE ACTION: Submit the business plan electronically in the California Environmental Reporting System (CERS) and implement immediately.  
Violation Division: Los Angeles County Fire Department  
Violation Program: HMRRP  
Violation Source: CERS

Site ID: 373664  
Site Name: ANTELOPE VALLEY AUTO CARE  
Violation Date: 08-21-2019  
Citation: HSC 6.5 25123.3(h)(1) - California Health and Safety Code, Chapter 6.5, Section(s) 25123.3(h)(1)  
Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.  
Violation Notes: Returned to compliance on 09/19/2019. OBSERVATION: Facility is a small quantity generator and has failed to send hazardous waste off-site for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles). 2 x 55-gal drums full of used

Citation: HSC 6.95 25508(a)(3) - California Health and Safety Code, Chapter  
6.95, Section(s) 25508(a)(3)

Violation Description: Failure to complete and electronically submit a site map with all  
required content.

Violation Notes: Returned to compliance on 09/19/2019. OBSERVATION: The business failed  
to complete and electronically submit an accurate site map with all  
required content. Update and upload an accurate facility site map that  
includes all of the following: North orientation, loading area,  
internal roads, adjacent streets, storm and sewer drains, access and  
exit points, emergency shut offs, evacuation staging area, hazardous  
materials/waste storage areas and emergency response equipment.  
CORRECTIVE ACTION: Complete and electronically submit an updated site  
map with all required content through CERS.

Eval General Type: Other/Unknown  
Eval Date: 12-15-2017  
Violations Found: No  
Eval Type: Other, not routine, done by local agency  
Eval Notes: Follow-up conducted to verify compliance with violation noted on routine inspection dated 5/19/16. Met with manager/service writer Andrew Broderius on-site and discussed outstanding violation. Facility submitted the facility information and hazardous materials inventory elements through CERS but did not submit the emergency response plan. Instructed Mr. Broderius to complete the emergency response plan and submit through CERS immediately to avoid additional chargeable follow-up inspections at \$409 per inspection. Provided Mr. Broderius with the phone number to the Data Ops Unit.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

CERS ID: 10308979  
CERS Description: Hazardous Waste Generator

Violations:

Site ID: 4140  
Site Name: ALEX MUFLERS & AUTO REPAIR  
Violation Date: 01-12-2017  
Citation: HSC 6.5 25250.22 - California Health and Safety Code, Chapter 6.5, Section(s) 25250.22

Violation Description: Failure to properly manage used oil and/or fuel filters in accordance with the requirements.

Violation Notes: Returned to compliance on 02/16/2017. OBSERVATION: Generator failed to properly handle, manage, label, and/or recycle used oil and fuel filters. - No hazardous waste label was observed on used oil containers (2x55 G) - Used oil containers was not closed when not in use. - No recent disposal records for used oil and used oil filters available at the time of inspection. CORRECTIVE ACTION: Owner/Operator shall immediately comply with the Title 22 regulations with regards to the proper handling, management, labeling and recycling of used oil and fuel filters. Verify compliance with the CUPA.

Violation Division: Los Angeles County Fire Department  
Violation Program: HW  
Violation Source: CERS

Site ID: 4140  
Site Name: ALEX MUFLERS & AUTO REPAIR  
Violation Date: 01-12-2017  
Citation: 22 CCR 12 66262.34(d) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.34(d)

Violation Description: Failure to send hazardous waste offsite for treatment, storage, or disposal within 180 days (or 270 days if waste is transported over 200 miles) for a generator who generates less than 1000 kilogram per month if all of the following conditions are met: (1) The quantity of hazardous waste accumulated onsite never exceeds 6,000 kilograms. (2) The generator complies with the requirements of 40 Code of Federal Regulations section 262.34(d), (e) and (f). (3) The generator does not hold acutely hazardous waste or extremely hazardous waste in an amount greater than one kilogram for more than 90 days.

Violation Notes: Returned to compliance on 02/16/2017. OBSERVATION: Facilities who generate less than 1000 kg of hazardous waste per month and do not exceed 6000 kg of waste stored on site at any time may store waste on site up to 180 days. - No recent manifest records for waste coolant were available at the time of inspection. Last manifest record dated 1/12/2016. CORRECTIVE ACTION: Immediately contact a licensed hazardous waste hauler to dispose of this waste under manifest and submit a copy of the manifest to the CUPA.

Violation Notes: Returned to compliance on 02/16/2017. OBSERVATION: This facility does not have a valid EPA ID number to manage hazardous waste. A hazardous waste generator shall not treat, store, dispose of, transport or offer for transportation, hazardous waste without an EPA ID number. CORRECTIVE ACTION: Immediately obtain an EPA ID number through DTSC to manage hazardous waste and submit evidence to the CUPA.

Violation Division: Los Angeles County Fire Department  
Violation Program: HW  
Violation Source: CERS

Site ID: 4140  
Site Name: ALEX MUFLERS & AUTO REPAIR  
Violation Date: 01-12-2017  
Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173

Violation Description: Failure to meet the following container management requirements: (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

Violation Notes: Returned to compliance on 02/16/2017. OBSERVATION: All hazardous waste containers shall be closed at all times except when adding or removing waste. - 55 gal waste coolant container was not closed when not in use. CORRECTIVE ACTION: Immediately close these containers and ensure all hazardous waste containers are closed when not adding or removing waste.

Environmental Interest/Information System:

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Click this hyperlink while viewing on your computer to access additional FINDS: detail in the EDR Site Report.

Violation Notes: name and address of the generator, physical and chemical characteristics of the Hazardous Waste, and starting accumulation date.  
Returned to compliance on 04/06/2017. OBSERVATION: All hazardous waste containers shall be marked with the following information: 1) the words G Hazardous WasteG ; 2) name and address of generator; 3) hazardous properties; 4) physical state; 5) composition (contents); 6) accumulation start date. The following containers were observed without a hazardous waste label - 1 x 5 gal waste coolant - 2 x 5 gal used oil - 1 x 55 gal waste paint material - 2 x 5 gal waste paint material - 1 x 55 gal spent spray booth filters CORRECTIVE ACTION: Immediately label these containers and ensure that all containers are marked with all the required information. Since it cannot be determined how long the waste coolant container, waste paint material, and spent spray booth filters have been on site, immediately contact a licensed hazardous waste hauler to dispose of this waste under manifest and submit a copy of the manifest to the CUPA.

Violation Program: HW  
Violation Source: CERS

Site ID: 419961  
Site Name: AR AUTO BODY  
Violation Date: 02-16-2017  
Citation: 40 CFR 1 265.173 - U.S. Code of Federal Regulations, Title 40, Chapter 1, Section(s) 265.173

Violation Description: Failure to meet the following container management requirements: (a) A container holding hazardous waste must always be closed during storage, except when it is necessary to add or remove waste. (b) A container holding hazardous waste must not be opened, handled, or stored in a manner which may rupture the container or cause it to leak.

Violation Notes: Returned to compliance on 04/06/2017. OBSERVATION: All hazardous waste containers shall be closed at all times except when adding or removing waste. Observed waste coolant container opened at the time of inspection. CORRECTIVE ACTION: Immediately close these containers and ensure all hazardous waste containers are closed when not adding or removing waste.

Citation: 22 CCR 12 66262.40(a) - California Code of Regulations, Title 22, Chapter 12, Section(s) 66262.40(a)  
Violation Description: Failure to keep a copy of each properly signed manifest for at least three years from the date the waste was accepted by the initial transporter. The manifest signed at the time the waste was accepted for transport shall be kept until receiving a signed copy from the designated facility which received the waste.  
Violation Notes: Returned to compliance on 04/06/2017. OBSERVATION: Copies of hazardous waste disposal records for waste paint material, spray booth filters, waste coolant were not found on site. Hazardous waste generators shall retain copies of all manifests signed off by the disposal facility and all receipts used in a consolidated manifesting procedure on site for three years and have them readily available for review. CORRECTIVE ACTION: Immediately locate a copy of all manifests and receipts for the last three years, maintain them on site, and submit copies to the CUPA.

Environmental Interest/Information System:

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

**Environmental Interest/Information System:**

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Potential Media Affect: Not reported  
Potential Contaminants of Concern: Not reported  
Site History: The case was opened following an unauthorized release from an underground storage tank system at the subject site. Corrective action is underway as directed by the Lahontan Regional Water Quality Control Board. Corrective action may consist of preliminary site investigation, planning and implementation of remedial action, verification monitoring, or a combination thereof. A summary of the site history is available by clicking on either the "Cleanup Status History", "Regulatory Activities" or the "Site Maps/Documents" tab. For a complete site history the case file at the Lahontan Regional Water Quality Control Board should be consulted.
