## **J-1 Los Angeles Fire Department Correspondence**

**CITY OF LOS ANGELES**  
INTER-DEPARTMENTAL CORRESPONDENCE

September 28, 2022

**To:** Vincent Bertoni, AICP, Director of Planning  
Department of City Planning  
Attention: Jim Harris

**From:** Fire Department

**Subject: Notice of Preparation of an Environmental Impact --Updated**

**CASE NO.: ENV-2017-5424-EIR --Updated**

**PROJECT NAME: HILTON UNIVERSAL CITY PROJECT**

**PROJECT APPLICANT: HILLCREST REAL ESTATE, LLC**

**PROJECT LOCATION: 555 E. UNIVERSAL HOLLYWOOD DR. UNIVERSAL CITY, CA 91608**

**PROJECT DESCRIPTION:**

The Project Site is located at 555 Universal Hollywood Drive in Universal City, immediately north of US-101 (Hollywood Freeway) and west of the intersection of Universal Hollywood Drive and Hotel Drive, in the Sherman Oaks–Studio City–Toluca Lake–Cahuenga Pass Community Plan Area of the City of Los Angeles. The Project Site is bounded by Universal Hollywood Drive to the north, Hotel Drive to the east, W.C. Fields Drive to the South, and a parking structure to the west.

The Project would expand existing Hilton Universal City Hotel (Hotel) facilities within the approximately 7.26-acre Hotel property (Project Site). Specifically, the Project would construct a new 18-story, 280,775-square-foot Hotel Expansion Building with 395 guest rooms, a new lobby, two restaurants and one lounge bar space, a spa, and new outdoor pool areas on the roof and southern portion of the Project Site. The Project would also expand the northern portion of the existing Ancillary Hotel Building to include a one-story addition (Meeting Room Addition) of 3,425 square feet, which would consist of four separate meeting rooms of less than 750 square feet each and connecting hallway. The Project would also involve constructing an expansion of the existing subterranean parking garage. In addition, the Project would include a revised surface parking program and landscape and hardscape improvements throughout much of the Project Site. To accommodate the proposed development, the Existing Outdoor Pool Area on the southern portion of the Project Site would be demolished, and the existing North and South Plazas would be reconfigured.

Overall, the Project would add approximately 289,010 square feet of additional floor area to the Project Site. The Project would provide a minimum of 464 new vehicle parking spaces to accommodate additional employees, hotel guests and restaurant/spa visitors. Upon completion of the Project, the Hilton Universal City Hotel would provide a maximum

of 890 guestrooms and 686,531 square feet of total floor area, resulting in a floor area ratio (FAR) of approximately 2.16:1 for the Project Site.

The following comments are furnished in response to your request for this Department to review the proposed development:

**FIRE FLOW:**

The adequacy of fire protection for a given area is based on required fire-flow, response distance from existing fire stations, and this Department's judgment for needs in the area. In general, the required fire-flow is closely related to land use. The quantity of water necessary for fire protection varies with the type of development, life hazard, occupancy, and the degree of fire hazard.

Fire-flow requirements vary from 2,000 gallons per minute (G.P.M.) in low density residential areas to 12,000 G.P.M. in high-density commercial or industrial areas. A minimum residual water pressure of 20 pounds per square inch (P.S.I.) is to remain in the water system, with the required gallons per minute flowing. The required fire-flow for this project has been set at **9,000 G.P.M.\* six fire hydrants flowing simultaneously.**

Improvements to the water system in this area may be required to provide 9,000 G.P.M.\* fire-flow. The cost of improving the water system may be charged to the developer. For more detailed information regarding water main improvements, the developer shall contact the Water Services Section of the Department of Water and Power.

**\*9,000 G.P.M. required for high rise buildings.**

**RESPONSE DISTANCE:**

Based on a required fire-flow of 9,000 G.P.M\*., the first-due Engine Company should be within 1 mile(s), the first-due Truck Company within 1 ½ mile(s).

**FIRE STATIONS:**

The Fire Department has existing fire stations at the following locations for initial response into the area of the proposed development: **555 E.Universal Hollywood Drive**

<b>DISTANCE</b> <b>1.4</b>	<b>Fire Station No. 76</b> 3111 N. Cahuenga Blvd. Los Angeles, CA 90068	<b>SERVICES &amp; EQUIPMENT</b> Assessment Engine and Paramedic Rescue Ambulance	<b>STAFF</b> <b>6</b>
<b>1.8</b>	<b>Fire Station No. 86</b> 4305 Vineland Avenue No. Hollywood, CA 91602	Assessment Engine, Paramedic Rescue Ambulance, Swift Water Rescue Team and Brush Patrol	<b>6</b>
<b>2.6</b>	<b>Fire Station No. 97</b> 8021 Mulholland Drive Los Angeles, CA 90046	Assessment Engine and Paramedic Rescue Ambulance	<b>6</b>
<b>3.1</b>	<b>Fire Station No. 60</b> 5320 Tujunga Avenue North Hollywood, CA 91601	Engine, Assessment Light Force, Paramedic Rescue Ambulance, BLS Rescue Ambulance AND Foam Tender	<b>16</b>
<b>4.1</b>	<b>Fire Station No. 27</b> 2009 S. Western Avenue Los Angeles, CA 90018	Assessment Engine, Light Force, Paramedic Rescue Ambulance and BLS Rescue Ambulance	<b>16</b>

Based on these criteria (response distance from existing fire stations), fire protection would be considered **inadequate**.

## **FIREFIGHTING PERSONNEL & APPARATUS ACCESS:**

Access for Fire Department apparatus and personnel to and into all structures shall be required.

One or more Knox Boxes will be required to be installed for LAFD access to project. location and number to be determined by LAFD Field Inspector. (Refer to FPB Req # 75).

505.1 Address identification. New and existing buildings shall have approved building identification placed in a position that is plainly legible and visible from the street or road fronting the property.

Where above ground floors are used for residential purposes, the access requirement shall be interpreted as being the horizontal travel distance from the street, driveway, alley, or designated fire lane to the main entrance of individual units.

The entrance or exit of all ground dwelling units shall not be more than 150 feet from the edge of a roadway of an improved street, access road, or designated fire lane.

No building or portion of a building shall be constructed more than 150 feet from the edge of a roadway of an improved street, access road, or designated fire lane.

The Fire Department may require additional vehicular access where buildings exceed 28 feet in height.

### **2014 CITY OF LOS ANGELES FIRE CODE, SECTION 503.1.4 (EXCEPTION)**

- a. When this exception is applied to a fully fire sprinklered residential building equipped with a wet standpipe outlet inside an exit stairway with at least a 2 hour rating the distance from the wet standpipe outlet in the stairway to the entry door of any dwelling unit or guest room shall not exceed 150 feet of horizontal travel AND the distance from the edge of the roadway of an improved street or approved fire lane to the door into the same exit stairway directly from outside the building shall not exceed 150 feet of horizontal travel.
- b. It is the intent of this policy that in no case will the maximum travel distance exceed 150 feet inside the structure and 150 feet outside the structure. The term "horizontal travel" refers to the actual path of travel to be taken by a person responding to an emergency in the building.
- c. This policy does not apply to single-family dwellings or to non-residential buildings.

Building designs for multi-storied residential buildings shall incorporate at least one access stairwell off the main lobby of the building; But, in no case greater than 150ft horizontal travel distance from the edge of the public street, private street or Fire Lane. This stairwell shall extend onto the roof.

Entrance to the main lobby shall be located off the address side of the building.

Any required Fire Annunciator panel or Fire Control Room shall be located within 20ft visual line of site of the main entrance stairwell or to the satisfaction of the Fire Department.

Fire lane width shall not be less than 20 feet. When a fire lane must accommodate the operation of Fire Department aerial ladder apparatus or where fire hydrants are installed, those portions shall not be less than 28 feet in width.

The width of private roadways for general access use and fire lanes shall not be less than feet, and the fire lane must be clear to the sky.

Fire lanes, where required and dead ending streets shall terminate in a cul-de-sac or other approved turning area. No dead ending street or fire lane shall be greater than 700 feet in length or secondary access shall be required.

All parking restrictions for fire lanes shall be posted and/or painted prior to any Temporary Certificate of Occupancy being issued.

Plans showing areas to be posted and/or painted, "FIRE LANE NO PARKING" shall be submitted and approved by the Fire Department prior to building permit application sign-off.

Electric Gates approved by the Fire Department shall be tested by the Fire Department prior to Building and Safety granting a Certificate of Occupancy.

Submit plot plans indicating access road and turning area for Fire Department approval.

Adequate off-site public and on-site private fire hydrants may be required. Their number and location to be determined after the Fire Department's review of the plot plan.

Standard cut-corners will be used on all turns.

The Fire Department may require additional roof access via parapet access roof ladders where buildings exceed 28 feet in height, and when overhead wires or other obstructions block aerial ladder access.

5101.1 Emergency responder radio coverage in new buildings. All new buildings shall have approved radio coverage for emergency responders within the building based upon the existing coverage levels of the public safety communication systems of the jurisdiction at the exterior of the building. This section shall not require improvement of the existing public safety communication systems.

Recently, the Los Angeles Fire Department (LAFD) modified Fire Prevention Bureau (FPB) Requirement 10. Helicopter landing facilities are still required on all High-Rise buildings in the City. However, FPB's Requirement 10 has been revised to provide two new alternatives to a full FAA-approved helicopter landing facilities.

Each standpipe in a new high-rise building shall be provided with two remotely located FDC's for each zone in compliance with NFPA 14-2013, Section 7.12.2.

The inclusion of the above listed recommendations, along with any additional recommendations made during later reviews of the proposed project will reduce the impacts to an acceptable level.

Definitive plans and specifications shall be submitted to this Department and requirements for necessary permits satisfied prior to commencement of any portion of this project.

The Los Angeles Fire Department continually evaluates fire station placement and overall Department services for the entire City, as well as specific areas. The development of this proposed project, along with other approved and planned projects in the immediate area, may result in the need for the following:

1. Increased staffing for existing facilities. (I.E., Paramedic Rescue Ambulance and EMT Rescue Ambulance resources.)
2. Additional fire protection facilities.
3. Relocation of present fire protection facilities.

For additional information, please contact the Fire Development Services Section, Hydrants & Access Unit at **(213) 482-6543** or **lafdhhydrants@lacity.org**.

Very truly yours,

Kristin Crowley  
Fire Marshal

**RECEIVED**  
CITY OF LOS ANGELES

**SEP 20 2023**

**MAJOR PROJECTS  
UNIT**

Dear Jim Harris:

[ENV-0000-0000-EIR]

The proposed, "Hilton Universal City Expansion Project," is located at 555 Universal Hollywood Drive, Universal City, CA 91608. The Reporting District (RD 1587) is within the geographical boundaries of the Los Angeles Police Department's, North Hollywood Area. A project of this size could have an impact on police services within the North Hollywood Area. The Department is available for advisement on crime prevention features appropriate for the design of this project. The Department strongly recommends that the developers contact the Public Engagement Section's "Crime Prevention Through Environmental Design" (CPTED) unit.

Upon completion of your project, you are encouraged to provide the Commanding Officer of North Hollywood Division with a copy of the project. North Hollywood Community Police Station's Commanding Officer is Captain I Raymond Lucas (Interim). North Hollywood Community Police Station is located at 11640 Burbank Boulevard, North Hollywood, CA 91601 (RD 1547). Captain Lucas's phone number is (818) 754-8315. The diagrams should include access routes and any additional information that might facilitate police response.

Should you have any further questions, please contact Officer James Nichols at LAPD Public Engagement Section (PES), "Crime Prevention Through Environmental Design" at Phone (213) 486-6000 or via e-mail at [CPTED@lapd.online](mailto:CPTED@lapd.online).

Respectfully,

**MICHEL R. MOORE**  
Chief of Police

A handwritten signature in dark ink, appearing to read "Michel R. Moore", is written over the printed name and title.

**The following report was prepared for the “Hilton Universal City Expansion Project” in accordance with Section 15083 of the California Environmental Quality Act (CEQA).**

**Project Location / Description:**

The “Hilton Universal City Expansion Project” site is located at 555 Universal Hollywood Drive, Universal City, CA 91608.

This project will be constructed within the boundaries of the City of Los Angeles, serving in the communities of Sherman Oaks, Studio City, Toluca Lake and the Cahuenga Pass Community (Valley Bureau).

A summarization of the project’s Environmental Impact Report (EIR), is to identify and assess the project’s potential impact on public quality of life issues and concerns. This is in accordance with section 15083 of the California Environmental Quality Act (CEQA). This EIR will also assess the project’s potential impact on police protection services, the resources needed, the resources available and the impact these services and resources will have on the immediate community.

**Purpose of Proposed Project:**

The proposed “Hilton Universal City Expansion Project” proposes to expand the existing Hilton Universal City Hotel. This expansion will take place inside the hotel’s 7.26 acres of hotel property. The project intends to construct a new 18-story, 280,775 square foot expanded hotel building. The project would also expand the northern portion of an existing “Ancillary Hotel” building. This would include a one-story meeting room addition. This 3,425 square foot addition would consist of four separate meeting rooms of less than 750 square feet each. The project would expand the existing subterranean parking garage. The project would also include a revised parking surface program, landscape and hardscape improvement.

The proposed development would include the demolition of the outdoor pool area and the reconfiguring of the North and South Plazas.

Overall, the project would add approximately 289,010 square feet of additional floor area to the project. Upon completion of the expansion project, the Hilton Universal City Hotel would provide 686,531 square feet of total floor area.

**Project Distance and Times:**

The measured distance and time to 555 Universal Hollywood Drive from North Hollywood Police Station is approximately 4.2 miles @ 9 minutes.

These distances and times were calculated from a departure point starting from North Hollywood Community Police Station. These arrival times were also configured utilizing some traffic delays. Estimated times of arrival can vary depending on divisional call load, time of the day, traffic delays and types of calls being responded to.

The reporting district for North Hollywood Community Police Station is RD 1547. Their phone number is (818) 754-8315.

**Divisional Geographic's / Demographics:**

North Hollywood Community Police Station's geographical area of patrol is approximately 25 square miles and consists of 60 Reporting Districts. The service boundaries for North Hollywood area are as follows:

To the **West** is Tujunga Wash Path, Victory Boulevard, Coldwater Canyon Avenue, Burbank Boulevard, Coldwater Canyon Avenue, Chandler Boulevard, Tujunga Wash, Whitsett Avenue, US 101 Ventura Freeway, Coldwater Canyon Avenue, Moorpark Street, Fulton Avenue, Valleyheart Drive, Coldwater Canyon Avenue and Mulholland Drive.

To the **North** is Cantara Street, CA 170 Hollywood Freeway, Whitsett Avenue, Saticoy Street and Clybourn Avenue.

To the **East** is Clybourn Avenue, Sherman Way, Vineland Avenue, Ventura Subdivision MT2, City of Burbank Boundary, Clybourn Avenue, Magnolia Boulevard, Ledge Avenue, West Clark Avenue, Clybourn Avenue, City of Burbank Boundary, Forest Lawn Drive and Los Angeles Park Boundary.

To the **South** is Griffith Park Boundary, Barham Boulevard, US 101 Hollywood Freeway and Mulholland Drive.

The proposed, "Hilton Universal City Expansion Project", will be in ***RD 1587*** (*Los Angeles Police Department's North Hollywood Division*). The borders for ***RD 1587*** are as follows:

**Reporting District 1587**

To the **West** is the Northbound Hollywood 101 Freeway.

To the **North** is Lankershim Boulevard, Universal Hollywood Drive, Universal Studios (land) and Universal Studios 1<sup>st</sup> Street.

To the **East** is Universal Studios (land), Universal Terrace Parkway, Universal City (land), Universal Hollywood Drive, Universal City (land), Universal Citywalk, Universal City (land), Universal Hollywood Drive and WC Fields Drive.

To the **South** is WC Fields Drive, California State Highway land and Northbound Hollywood Freeway.

**North Hollywood Division**

North Hollywood Division has approximately 203 full time sworn personnel, 10 Sworn Reserve Police Officers and 14 civilian support staff. The North Hollywood area of Los Angeles is a culturally diverse community with a population of over 77,848 residents in 5.87 square miles (according to the 2020 U.S. Census). North Hollywood Division not only covers the City of North Hollywood, but also other smaller local, sub-city community neighborhoods, like Studio City, Valley Village, Toluca Lake and a portion of Sun Valley. This results in a total police area coverage of 25 square miles. This 25 square mile area has a total population of 167,500 residents (according to the 2020 U.S. Census).

The officer to resident ratio is 1 officer to every 786 residents (786:1). This is a given residential impact for North Hollywood's 25 square mile area. This population amount does not reflect citizens from outside the area visiting local businesses, churches, residences and educational institutions.

As being a culturally diverse community, the North Hollywood area of Los Angeles is abundant with a multitude of ethnically diverse populous. The North Hollywood area of Los Angeles, is located just north of Hollywood and is a part of the San Fernando Valley.

To the north, North Hollywood Division borders LAPD's Mission Division and Foothill Division. To the west is LAPD's Van Nuys Division. To the south is LAPD's Hollywood Division and West Los Angeles Division. To the east is LAPD's Northeast Division and the City of Burbank.

Some points of interest that the North Hollywood area of Los Angeles offers are, the "NOHO" Arts District, the El Portal Theatre, art galleries and The Academy of Television Arts and Sciences. It is also home to Universal Studios, Hotels and Theme Park and the North Hollywood Metro Rail Station.

### **The Los Angeles Police Department**

The Los Angeles Police Department currently has 9,204 sworn personnel and 3,337 civilian employees. These city police employees cater to a Los Angeles City population of approximately 3,985,516. This population amount is current as of October 1<sup>st</sup>, 2021 (according to 2010-2019 American Community Survey and the 2020 US Census for year 2022). Additionally, this amount does not include all residents and non-residents, but only reflects those individuals that responded to the 2020 Census.

This population equates to a resident to officer ratio of 433 residents for every 1 officer (433:1). The 3,985,516, population amount, depicts a firm registered value of the population for the City of Los Angeles. However, this number can also be fluid.

The ethnic break down of The City of Los Angeles, according to the 2010-2019 American Community Survey and Wikipedia is:

- 46.9% Hispanic / Latin
- 28.9% White (Non-Hispanic)
- 11.7% Asian
- 8.3% Black / African American
- 0.73% Native American
- 0.16% Native Hawaiian / Pacific Islander
- 3.4% Other/two or more races

### **Divisional Support and Communication:**

There are many specialized support units, divisions, sections and services available to North Hollywood Division within the LAPD (i.e., Air Support, Detective sections, Motor Units, Bike Units, K9 and Metro / SWAT) to support any additional policing needs North Hollywood Division may encounter. These services are available to supplement and complement North Hollywood's policing services. In utilizing these available resources, the Los Angeles Police Department can

meet the demands for police services for the Hilton Universal City Expansion Project. North Hollywood Community Police Station's emergency response system is directly linked to the Los Angeles Police Department's Communication and Dispatch Center. Communication Division has the responsibility to staff this Dispatch Center. The staff are incident trained personnel that will respond to radioed and telephoned calls for service. They would then dispatch these requests to the proper emergency and non-emergency personnel required or requested. Then they would provide the city personnel involved with the necessary information to execute the duties of their office for any prevailing incidents.

These operations are performed on a 24 hour a day, 7 days a week, 365 days a year basis. This includes 9-1-1 emergency calls (police, fire and medical). In referencing Communication Division, their main area of concentration is the dispatching and follow-up of police calls for service. Communication Division's, "Emergency Operations Center" (EOC / DOC), also works in concert with the Los Angeles Fire Department's (LAFD), "Metropolitan Fire Communications Center" (MFC).

Additional emergency response entities that Communication Division interacts with are, but not limited to, is the Los Angeles County Fire Department (LACoFD), the Los Angeles County Sheriff's Department (LASD) and other regional city police and fire agencies. This interaction is performed to ensure coordinated responses to all emergencies and incidents that occurred, will occur or are occurring in the Los Angeles City and Los Angeles County regions.

#### **Divisional and Citywide Response Times:**

According to the Los Angeles Police Department's Computer Statistics (COMPSTAT) Division, the average police response time to emergency, high priority calls in the North Hollywood area (Code 3 calls) was 4.6 minutes (as of July 29, 2023). This was done with a dispatch median time of 1.4 minutes. The medium high priority response time (Code 2) as of July 29, 2023 was 13.6 minutes. This was done with a dispatch median time of 3.5 minutes. Low priority, non-emergency response times, as of July 29, 2023 was 24.4 minutes. These low priority calls had a dispatch median time of 11.9 minutes.

Citywide response times during this same 4-week period was 4.5 minutes for emergency, high priority calls. The dispatch median time was 1.5 minutes. The medium high priority response times were 16.1 minutes with a dispatch time of 4.6 minutes. Low priority response times were 31.3 minutes with a dispatch time of 13.0 minutes.

These response times were taken from the statistics submitted by North Hollywood Division to COMPSTAT for a 4-week period between July 02, 2023 through July 29, 2023. During this same 4-week period, North Hollywood Division answered 298 emergency calls for service, 1,417 medium high priority calls and 1,225 low priority calls.

Citywide, for the same 4-week period, the Los Angeles Police Department answered 7,281 emergency calls for service, 28,671 medium high priority calls and 21,511 low priority calls. The response times stated are adequate performance times for this police division.

**Statistics:**

The following is one month of crime statistics for RD 1587 (Hilton Universal City Expansion Project) and 5-year crime statistics for North Hollywood Division (NoHo) for the years 2019-2023. Also included are Citywide crime statistics, broken down by month for the same period.

At this time, there are no planned improvements to the North Hollywood Community Police Station and its protection facilities. If there are any planned project improvements or non-planned improvements, they are only intended for the service areas of the "Hilton Universal City Expansion Project" site.

Additionally, at this time, there are no special police protection requirements needed by law enforcement because of the specific attributes of the Hilton Universal City Expansion Project site.

The Hilton Universal City Expansion Project, individually or combined with other past or present projects, will not result in the need for new or altered police facilities.

This concludes the Hilton Universal City Expansion Project, Environmental Impact Report. If there are any further questions regarding this report, please email them to [CPTED@lapd.online](mailto:CPTED@lapd.online) for the fastest response time.

Thank You for your patience,

34726
