Project Title: World Oil Tank Installation Project  
Project Applicant: Ribost Terminal, LLC DBA World Oil Terminals  
Project Location (Include County): 1405 Pier C Street, Long Beach, California 90813; Los Angeles County

Project Description:

The World Oil Tank Installation Project (Project) involves the construction and operation of two new 25,000 barrel-capacity internal floating roof petroleum storage tanks within the existing World Oil Terminal located on Pier C in the Long Beach Harbor District. Construction of the two new tanks would include new tank foundations and pipeline connections to existing facility infrastructure, such as the truck loading racks. The Project would provide additional storage capacity to increase the efficiency of terminal operations and supplant the terminal's existing tanks that provide crude oil storage to the World Oil Refinery in South Gate. The existing tanks would then be removed from dedicated refinery service and become available to lease to third-party vendors.

This is to advise that as the Lead Agency, the City of Long Beach Harbor Department, acting by and through its Board of Harbor Commissioners, approved the above-described Project on October 28, 2021 and has made the following determinations regarding the above-described Project.
