Project Title: Sewer Relief Trunk Project – from Renz Lane to Highland Avenue Project

Project Location: The 6.6-mile sewer trunk line extends from Renz Lane in the City of Gilroy to Highland Avenue within the unincorporated San Martin planning area of the Santa Clara County.

Project Description The Sewer Relief Trunk – from Renz Lane to Highland Avenue Project (“Project”) proposes the installation of approximately 6.6 miles of sewer pipeline that would extend from the termination of the previously constructed Harding Avenue segment of the sewer relief trunk located at the intersection of Harding Avenue and Highland Avenue in San Martin, southeast to the previously constructed City of Gilroy segment of the sewer relief trunk located on Renz Lane in Gilroy. The proposed sewer relief truck alignment would be located mostly within the existing roadway right-of-way, plus a few new utility easements. Generally, the trunk line would be located in the paved roadway, unimproved private roadway, two highway crossings, one railroad crossing, and two waterway crossings.

The project site is not included on sites listed in the hazardous materials databases pursuant to Government Code Section 65962.5 (Cortese List).
