

Summary Form for Electronic Document Submittal

Form F

Lead agencies may include 15 hardcopies of this document when submitting electronic copies of Environmental Impact Reports, Negative Declarations, Mitigated Negative Declarations, or Notices of Preparation to the State Clearinghouse (SCH). The SCH also accepts other summaries, such as EIR Executive Summaries prepared pursuant to CEQA Guidelines Section 15123. Please include one copy of the Notice of Completion Form (NOC) with your submission and attach the summary to each electronic copy of the document.

Project Title: Washington Blvd at All America City Blvd Roundabout Project

Lead Agency: City of Roseville

Contact Name: Terri Shirhall, Environmental Coordinator

Email: tshirhall@roseville.ca.us

Phone Number: 916-774-5536

Project Location: Roseville, Placer County

City

County

Project Description (Proposed actions, location, and/or consequences).

The project site is within the intersection of Washington Boulevard, All America City Boulevard, and Lincoln Street in the City of Roseville (City), Placer County. The project site extends approximately 400 feet along Washington Boulevard to the north and south, approximately 250 feet within All America City Boulevard to the west, and approximately 400 feet southeasterly along Lincoln Street.

The City of Roseville is proposing to construct improvements at the unsignalized intersection of Washington Boulevard and All America City Boulevard and Lincoln Street. Improvements include installation of a roundabout that would maintain the multilane configuration of Washington Boulevard and would include single lane approaches and departures from All America City Boulevard on the west and dual entry and exit configuration at Lincoln Street on the east. The proposed project would include improvements for pedestrian and bicycle travel with a multiuse trail, bike lane, improvements to the existing crosswalk on All America City Boulevard, a new crosswalk across Lincoln Street and two n

Identify the project's significant or potentially significant effects and briefly describe any proposed mitigation measures that would reduce or avoid that effect.

The following resource areas include mitigation measures to reduce potentially significant impacts to less than significant impacts associated with project construction: Air Quality, Biological Resources, Cultural Resources, Geology/Soils, Hazards & Hazardous Materials, Tribal Cultural Resources.

Air Quality mitigation includes best management practices and implementation of the Placer County Air Pollution Control District Recommended Construction Mitigation Measures.

Biological mitigation includes pre-construction training, and pre-construction surveys for listed/protected plant and animal species, and preparation of a tree protection plan.

Cultural and Tribal Resource mitigation includes pre-construction training, and standard procedures in the event of a discovery (including stop work and notification procedures).

Geology/Soils mitigation will be achieved via worker education, plan review and appropriate construction techniques.

Hazards mitigation consists of implementation of a Soil Management Plan, and retention of a licensed hazardous material professional.

If applicable, describe any of the project's areas of controversy known to the Lead Agency, including issues raised by agencies and the public.

N/A

Provide a list of the responsible or trustee agencies for the project.

Public agencies whose approval is required (e.g., permits, financing approval, or participation agreement.)

- Caltrans District 3, Office of Local Assistance
- U.S. Army Corps of Engineers
- Regional Water Quality Control Board
- California Department of Fish and Wildlife
