**Present Land Use/Zoning/General Plan Designation:****Project Description:** *(please use a separate page if necessary)*

Aurora Solar LLC, a wholly-owned subsidiary of Avangrid Renewables, has applied to the CSLC for lease of lands managed by the CSLC on which to construct and operate a solar generation project, called the Stagecoach Solar Project (Project). The proposed Project would produce up to 200 megawatts (MW) of solar energy using photovoltaic (PV) technology. The proposed Project area encompasses approximately 3,000 acres, with PV modules and associated infrastructure to be constructed on approximately 1,950 acres. The proposed Project also includes construction of a 9.1-mile-long 220 kV generation intertie (gen-tie) transmission line to carry the electricity generated by the solar facility to the regional transmission system interconnection at the proposed 7-acre Southern California Edison Calcite Facilities, including the substation.

Note: The State Clearinghouse will assign identification numbers for all new projects. If a SCH number already exists for a project (e.g. Notice of Preparation or previous draft document) please fill in.

## Reviewing Agencies Checklist

Lead Agencies may recommend State Clearinghouse distribution by marking agencies below with an "X".  
If you have already sent your document to the agency please denote that with an "S".
